331	336	ROCK
336	355	SAND

9) CASING:
Type: Old _____ New Steel _____ Plastic Other _____
Cemented from 0 ft. to 336' ft.
Diameter (inches) 4" Setting From (ft.) 0 To (ft.) 336 Gage _____

10) SCREEN:
Type PLASTIC-RIBBED
Perforated _____ Slotted _____
Diameter (inches) 2 1/2" Setting From (ft.) 340 To (ft.) 355 Slot Size #14

7) COMPLETION (Check):
Straight well _____ Gravel packed TWO-STRING Other _____
Under reamed _____ Open Hole _____

8) WATER LEVEL:
Static level 212 ft. below land surface Date JUNE 21, 78
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 223 ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes _____ No _____ If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No
Did any strata contain undesirable water? Yes _____ No
Type of water? _____ depth of strata 19'

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

(Signed) R.B. Lowry Lowry Water Wells
(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GM-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

DATE DRILLED: 01/31/91

GEOLOGICAL DESCRIPTION:

Table with columns FROM, TO, DESCRIPTION. Rows include TOP SOIL, CLAY, SAND, SAND & CLAY, ROCK, SAND.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

Table with columns DIA, NEW/USED, DESCRIPTION, FROM, TO, GAGE CASING SCREEN. Rows include STEEL CASING, GALVANIZED LINER, S.S. ROD BASE SCREEN.

9) CEMENTING DATA:

Cemented from 487 FT. TO 0 FT.
Method used: PRESSURE
Cemented by: ODCI

RECEIVED SEP 06 1991

10) SURFACE COMPLETION:

SLAB

TEXAS WATER COMMISSION

11) WATER LEVEL:

STATIC LEVEL : 308 FT. DATE: 01/31/91
ARTESIAN FLOW: GPM. DATE:

12) PACKERS:

TYPE DEPTH
B P VALVE 479

13) TYPE PUMP:

SUBMERSIBLE
DEPTH TO PUMP: 399

14) WELL TEST:

JETTED
YIELD: 150 GPM WITH 35 FT DRAWDOWN AFTER 36 HRS

15) WATER QUALITY:

TYPE OF WATER: GOOD WATER DEPTH OF STRATA: 60 CHEMICAL ANALYSIS MADE
NO STRATA OF UNDESIRABLE WATER PENETRATED

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other _____
If Gravel Packed give interval ... from _____ ft. to _____ ft.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

9) CEMENTING DATA [Rule 319.44(b)]
Cemented from 0' ft. to 15' ft. No. of Sacks Used _____
Cemented from 365' ft. to 405' ft. No. of Sacks Used _____
Method used: Haliburton
Cemented by: Bussell & Son, Inc

10) SURFACE COMPLETION
 Specified Surface Slab Installed [Rule 319.44(c)]
 Pitless Adapter Used [Rule 319.44(d)]
 Approved Alternative Procedure Used [Rule 319.71]

11) WATER LEVEL:
Static level 260' ft. below land surface Date 3-24-89
Artesian flow _____ gpm. Date _____

12) PACKERS: Type _____ Depth _____

13) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., _____ ft.

14) WELL TESTS:
Type Test: Pump Bailor Slotted Estimated
Yield: 25 gpm with 15 ft. drawdown after 3 hrs.

15) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 12 will result in the log(s) being returned for completion and resubmittal.

5) TYPE OF WELL (Check):
 Rotary Driven _____ Dug _____
Cable _____ Jetted _____ Bored _____

6) WELL LOG:
Diameter of hole 6 3/4 in. Depth drilled 351 ft. Depth of completed well 351 ft. Date drilled 11/12/75
All measurements made from 0 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	7	top soil
7	40	clay
40	45	red sand
45	90	clay
90	93	white sand
93	190	clay and shell
190	240	sand
240	320	clay
320	351	sand
351		clay

9) CASING:
Type: Old _____ New Steel _____ Plastic Other _____
Cemented from 175 ft. to 325 ft.

Diameter (inches)	Setting From (ft.)	To (ft.)	Gage
4"	0	325	40

10) SCREEN:
Type: plastic
 Perforated Slotted _____

Diameter (inches)	Setting From (ft.)	To (ft.)	Slot Size
2/12	331	351	012

7) COMPLETION (Check):
Straight wall _____ Gravel packed _____ Other _____
Under reamed _____ Open Hole cemented

8) WATER LEVEL:
Static level 175 ft. below land surface Date _____
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 294 ft. below land surface.

11) WELL TESTS: Ronald Chilton
Was a pump test made? Yes No If yes, by whom?
Yield: 200 gpm with 20 ft. drawdown after 2 hrs.
Bailer test No gpm with _____ ft. drawdown after _____ hrs.
Artesian flow No gpm
Temperature of water 72°

12) WATER QUALITY:
Was a chemical analysis made? Yes No
Did any strata contain undesirable water? Yes No
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-CN-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

WSS-WDS

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

75 - 80	Red Yellow Clay
80 - 98	Sand
98 - 105	Red Gray Clay
105 - 137	Sand
137 - 145	Red Gray Clay

VCS-504

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

248-315 Red, gray clay
315-349 Sand 16 ga.

2) LOCATION OF WELL:
The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.
Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.
When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract. Information furnished in Section 2) of the WDRS-CR-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-OW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

State of Texas WELL REPORT (2)

Texas Water Well Drillers Board
P.O. Box 13087
Austin, TX 78711-3087
512-371-6299

1) **OWNER** Guzzitta Brothers **ADDRESS** 1825 W. Little York, Hou. Tx.
(Name) (Street or RFD) (City) (State) (Zip)

2) **LOCATION OF WELL:**
County Harris 9 miles in NW direction from HOUSTON
(NE, SW, etc.) (Town)

Driller **must** complete the legal description below with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

LEGAL DESCRIPTION:
Section No. _____ Block No. _____ Township _____ Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

SEE ATTACHED MAP

3) **TYPE OF WORK (Check):**
 New Well Deepening
 Reconditioning Plugging

4) **PROPOSED USE (Check):**
 Domestic Industrial Monitor Public Supply
 Irrigation Test Well Injection De-Watering

5) **DRILLING METHOD (Check):** Driven
 Mud Rotary Air Hammer Jetted Bored
 Air Rotary Cable Tool Other _____

6) **WELL LOG:**
Date Drilling: 5/18 1994
Started 5/19 1994
Completed _____ 19____

From (ft.)	To (ft.)	DIAMETER OF HOLE		
		Dia. (in.)	From (ft.)	To (ft.)
		<u>7 7/8</u>	Surface	<u>540</u>

7) **BOREHOLE COMPLETION:**
 Open Hole Straight Wall Underreamed
 Gravel Packed Other String Cemented
If Gravel Packed give interval ... from _____ ft. to _____ ft.

From (ft.)	To (ft.)	Description and color of formation material	Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mtg., if commercial	Setting (ft.)		Gage Casting Screen
						From	To	
0	30	Top Soil						
30	75	Clay						
75	140	Sand	5	N	PVC Casing	0	496	SDR 17
140	200	Clay	2 1/2	N	PVC Liner	500	490	Sch 40
200	240	Sand	5 1/2	N	PVC Screen	540	500	.012
240	310	Clay & Rock						
310	400	Sand						
400	480	Clay						
480	540	Sand						

8) **CASING, BLANK PIPE, AND WELL SCREEN DATA:**

9) **CEMENTING DATA** [Rule 287.44(1)]
Cemented from Top to Bottom ft. No. of Sacks Used 30
0 ft. to 496 ft. No. of Sacks Used _____
Method used Halliburton
Cemented by RWW

10) **SURFACE COMPLETION**
 Specified Surface Slab Installed [Rule 287.44(2)(A)]
 Specified Steel Sleeve Installed [Rule 287.44(3)(A)]
 Pitless Adapter Used [Rule 287.44(3)(B)]
 Approved Alternative Procedure Used [Rule 287.71]

11) **WATER LEVEL:**
Static level 295 ft. below land surface Date 5/19/94
Artesian flow _____ gpm. Date _____

12) **PACKERS:**
Type _____ Depth 490
K

13) **TYPE PUMP:**
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 340 ft.

14) **WELL TESTS:**
Type Test: Pump Bailor Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

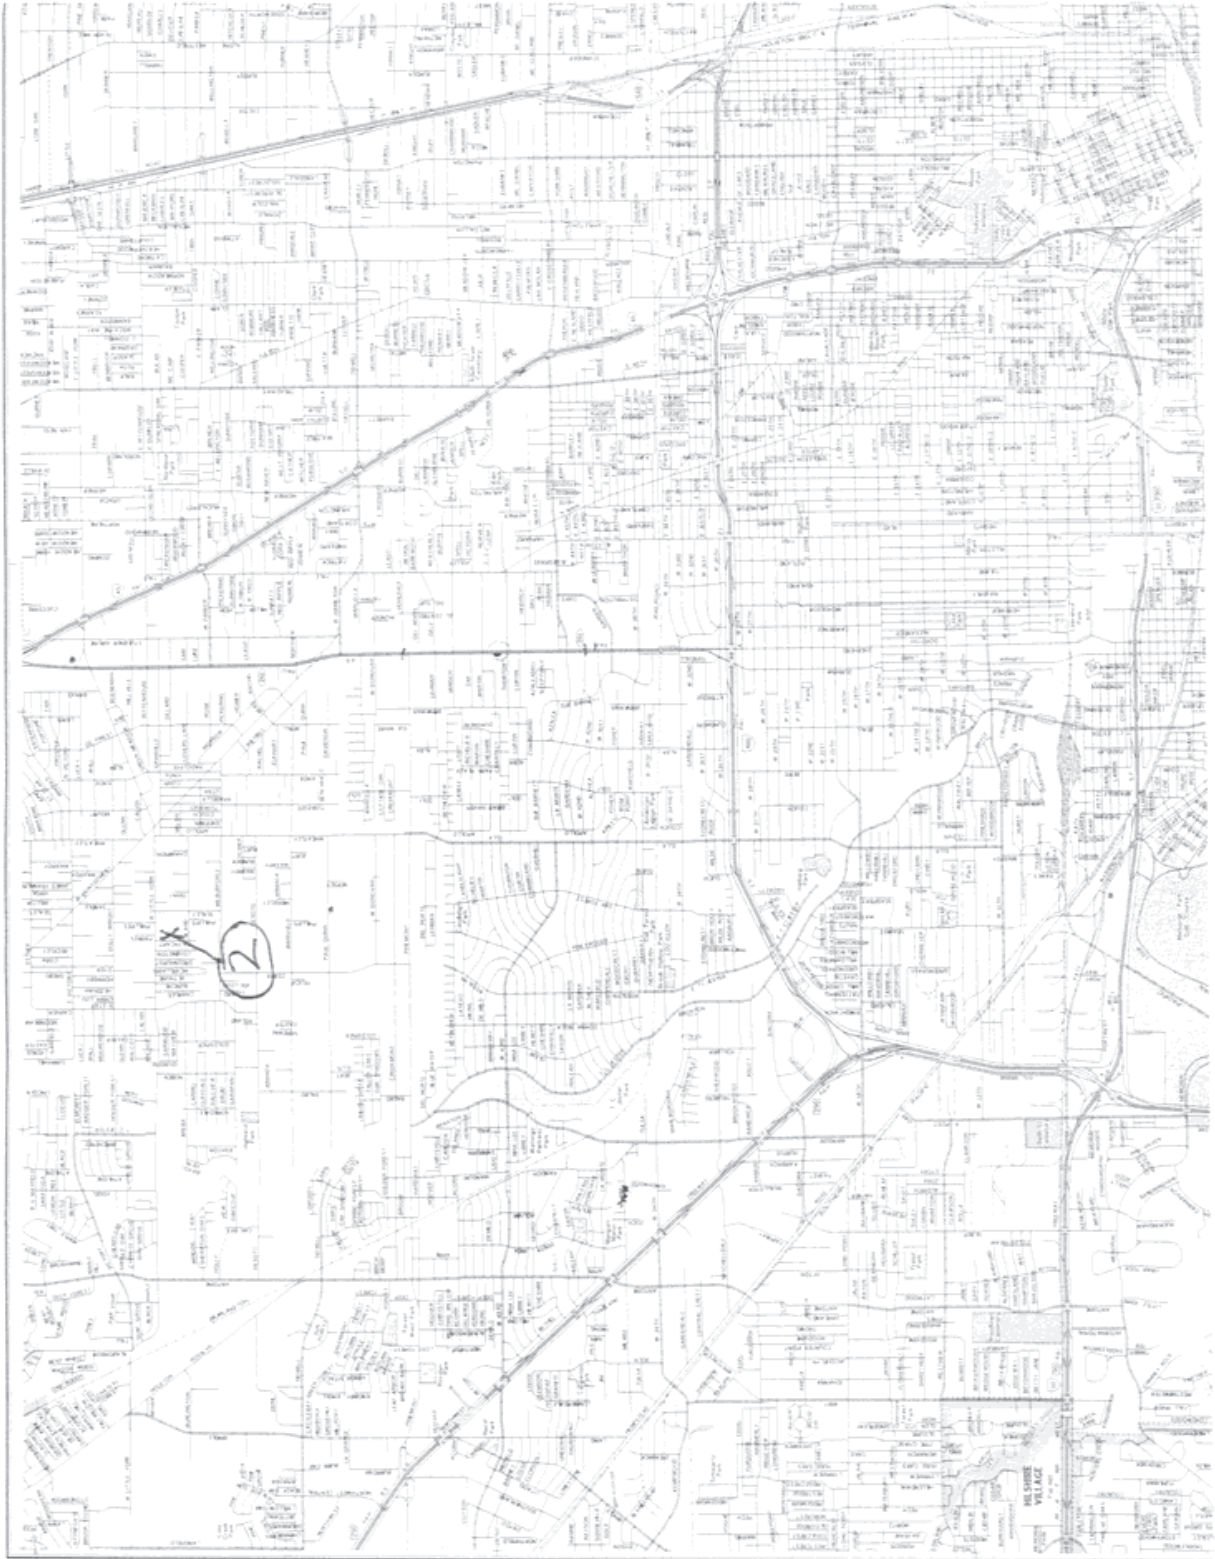

15) **WATER QUALITY:**
Did you knowingly penetrate any strata which contained undesirable constituents?
 Yes No If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.
TDWR-0392

66 (Map)

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2 of the TDWR-0392 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GM-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBS-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

State of Texas WATER WELL REPORT

For TWDB use only Well No. 65-05-1J Located on map 65-05-1J Received: 01/11/71

1) OWNER: Person having well drilled Northwest Sply. Corp. Houston Water Address Houston, Texas
 (Name) (Street or RFD) (City) (State)

Landowner Acres Homes Address Same
 (Name) (Street or RFD) (City) (State)

Water Well #2

2) LOCATION OF WELL: County Harris miles in _____ direction from _____
 (N.E., S.W., etc.) (Town)

Locate by sketch map showing landmarks, roads, creeks, highway number, etc. or Give legal location with distances and directions from adjacent sections or survey lines.

Well Site
Dolly Wright
 Phillips
 North
 (Use reverse side if necessary)

3) TYPE OF WORK (Check):
 New Well Deepening Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Municipal Irrigation Test Well Other

5) TYPE OF WELL (Check):
 Rotary Driven Dug Cable Jetted Bored

6) WELL LOG: Diameter of hole 24 in. Depth drilled 2109 ft. Depth of completed well 1585 ft. Date drilled 8/1971
 All measurements made from 9 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	9	Ground Level
9	43	Clay
43	70	Sand
70	75	Shale
75	96	Sand
96	100	Shale-Clay
100	122	Sand
122	174	Sand Clay-Gravel
174	260	Clay
260	284	Sand-Shale Strks.
284	287	Shale

(Use reverse side if necessary) (OVER)

9) CASING: Type: Old New Steel Plastic Other
 Cemented from Surface ft. to 620 ft.

Diameter (inches)	Setting From (ft.)	To (ft.)	Cage
14	570	626	Blank
"	671	722	"
"	742	805	"

10) SCREEN: Type S.S. Rib Type Screen

Diameter (inches)	Setting From (ft.)	To (ft.)	Sloc Size
14	626	671	.050 ga.
"	722	742	.050 "
"	805	822	.050 "

11) WELL TESTS: Was a pump test made? Yes No If yes, by whom?
Texas Water Wells, Inc.
 Yield: 2750 gpm with 58 ft. drawdown after 48 hrs.
 Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
 Artesian flow _____ gpm
 Temperature of water _____

12) WATER QUALITY: Was a chemical analysis made? Yes No
 Did any strata contain undesirable water? Yes No
 Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the (WDBS-UM-3) is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-CU-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

250-341 clay-red & white
341-352 14 ga.

(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.
DWR-0392

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2 of the TDWR-0392 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

WELL REPORT

A. WELL IDENTIFICATION AND LOCATION DATA

1) OWNER
 Name: **DAVID LOBO** Address: **402 W. CARBY** City: **HOUSTON** State: **TX** Zip: **77037**

2) WELL LOCATION
 County: **HARRIS** Physical Address: **SAME** City: _____ State: _____ Zip: _____

3) Type of Work
 New Well Reconditioning Replacement Deepening

4) Proposed Use (check) Monitor Environmental Soil Boring Domestic
 Industrial Irrigation Injection Public Supply De-watering Testwell
 Rig Supply If Public Supply well, were plans submitted? Yes No

5) _____ **NT**

6) Drilling Date
 Started **12/ 8 / 00** Completed **12/ 11 / 00**

7) Drilling Method (check) Driven Air Rotary Mud Rotary Bored Air Hammer Cable Tool Jetted Other _____

Interval	Diameter of Hole	Diameter of Hole		7) Drilling Method (check)	Setting (ft)	Gage Casing Screen
		Dia.(in)	From (ft)			
0-35	CLAY					
35-70	SAND					
70-130	CLAY					
130-170	SAND					
170-230	CLAY					
230-275	SAND					
275-300	CLAY					
300-320	SHALE					
320-400	SAND					

8) Borehole Completion Open Hole Straight Wall Under-reamed Gravel Packed Other **2 ST.**
 If Gravel Packed give the interval from _____ ft. to _____ ft.

Dia. (in.)	New Or Used	Steel, Plastic, etc. Perf. Slotted, etc. Screen Mfg., if commercial	Setting (ft) From	To	Gage Casing Screen
4	N	PVC CASING	0	380	
2.5	"	" LINER	375	380	
"	"	" SCREEN	380	400	.012

9) Cementing Data
 Cementing from **380** ft. to **0** ft. #of sacks used **20**
 _____ ft. to _____ ft. #of sacks used **12**
 Method Used **HALLIBURTON**
 Cementing By **SDI**
 Distance to septic system field or other concentrated contamination **75** ft.
 Method of verification of above distance **OWNER'S VER.**

10) Surface Completion
 Specified Surface Slab Installed
 Specified Surface Sleeve Installed
 Pitless Adapter Used
 Approved Alternative Procedure Used

11) Water Level
 Static level **245** ft. below Date **12/11/00**
 Artesian Flow _____ gpm. Date _____

12) Packers
 Type: **K-PACKER** Depth: **375**

13) Plugged Well plugged within 48 hours
 Casing left in well: _____ Cement/Bentonite placed in well: _____

From (ft)	To (ft)	From (ft)	To (ft)	Sacks used

14) Type Pump
 Turbine Jet Submersible Cylinder
 Other _____
 Depth to pump bowls, cylinder, jet etc., **300** ft.

15) Water Test
 Type test Pump Bailor Jetted Estimated
 Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

16) Water Quality
 Did you knowingly penetrate a strata which contain undesirable constituents.
 YES NO If yes, did you submit a REPORT OF UNDESIRABLE WATER
 Type of water _____ Depth of Strata _____
 Was a chemical analysis made Yes No

Company or individual's Name (type or print) **SCOTT DRILLING, INC.** Lic. No. **4839 WI**

TDWR-0392 (Rev. 1-12-79)

DEPARTMENT OF WATER RESOURCES COPY

IMPORTANT NOTICE FOR PERSONS HAVING WELLS DRILLED CONCERNING PRIVILEGE OF CONFIDENTIALITY

The Water Well Drillers Board and the Department of Water Resources are concerned that some persons having water wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every registered water well driller drilling, deepening, or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within sixty (60) days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential. Please note that the term "Commission" in the above-quoted section and elsewhere in the Water Well Drillers Act now properly means the Texas Department of Water Resources (P. O. Box 13087; Austin, Texas 78711).

CEMENTING DATA
Cemented from 286 ft. to 336 ft.
Method used Halliburton
Cemented by Bussell & Son, Inc.
(Company of Individual)

9) WATER LEVEL:
Static level 234 ft. below land surface Date 2/3/81
Artesian flow _____ gpm. Date _____

10) PACKERS: Type _____ Depth _____

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 294 ft.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

12) WELL TESTS:
 Type Test: Pump Bailor Jetted Estimated
Yield: 38 gpm with 40 ft. drawdown after 1 hr.

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

WELL REPORT**

Texas Department of Licensing & Regulation
P.O. Box 12157
Austin, TX 78711
512-463-7880

1) OWNER JOHNNY NOSKI ADDRESS 8123 YALE HOU TX 77037
(Name) (Street or RFD) (City) (State) (Zip)

2) ADDRESS OF WELL'S LOCATION: County HARRIS SAME Long. _____ Lat. _____
(Street, RFD or other) (City) (State) (Zip) Grid # 65-05-9

3) TYPE OF WORK (Check): New Well Deepening Reconditioning Plugging

4) PROPOSED USE (Check): Monitor Environmental Soil Boring Domestic Industrial Irrigation Injection Public Supply De-watering Testwell
If Public Supply well, were plans submitted to the TNRCC? Yes No

5) _____

6) WELL LOG:
Date Drilling: _____
Started 1/7/00 _____
Completed 1/7/00 _____

DIAMETER OF HOLE		
Dia. (in.)	From (ft.)	To (ft.)
<u>5</u>	Surface	<u>55</u>

7) DRILLING METHOD (Check): Driven Air Rotary Mud Rotary Bored Air Hammer Cable Tool Jetted Other _____

8) Borehole Completion (Check): Open Hole Straight Wall Underreamed Gravel Packed Other _____
If Gravel Packed give interval from 45 ft. to 55 ft.

CASING, BLANK PIPE, AND WELL SCREEN DATA:

Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.)		Gage Casing Screen
			From	To	
<u>2</u>	<u>N</u>	Plastic CASE	<u>0</u>	<u>45</u>	<u>SCHEO</u>
<u>2</u>	<u>N</u>	Plastic SCREEN	<u>45</u>	<u>55</u>	<u>ODG</u>

9) CEMENTING DATA
Cemented from 0 ft. to 45 ft. No. of sacks used 9
_____ ft. to _____ ft. No. of sacks used _____
Method used Pressure
Cemented by Raymond Services, Inc.
Distance to septic system field lines or other concentrated contamination NO ft.
Method of verification of above distance Customer

13) Well plugged within 48 hours

Casing left in well:		Cement/bentonite placed in well:		Sacks used:
From (ft)	To (ft)	From (ft)	To (ft)	

14) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bows, cylinder, jet, etc., 40 ft.

15) WELL TESTS:
Type test: Pump Bailer Jetted Estimated
Yield: 5 gpm with 5 ft. drawdown after 1 hrs.

16) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable constituents?
 Yes No If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

10) SURFACE COMPLETION
 Specified Surface Slab Installed
 Specified Steel Sleeve Installed
 Pileless Adapter Used
 Approved Alternative Procedure Used

11) WATER LEVEL:
Static level 28 ft. below land surface Date 1/7/00
Artesian flow _____ gpm. Date _____

12) PACKERS:
Type _____ Depth _____
NOAE

I certify that I drilled this well (or the well was drilled under my direct supervision) and that each and all of the statements herein are true and correct. I understand that failure to complete items 1 thru 16 will result in the log(s) being returned for completion and resubmittal.

DEPARTMENT OF WATER RESOURCES COPY

**IMPORTANT NOTICE FOR PERSONS
HAVING WELLS DRILLED CONCERNING
PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Department of Water Resources are concerned that some persons having water wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 30 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the department, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a department copy, shall include the name, mailing address, and telephone number of the Board and the department. The well log required herein shall at the request in writing to the department, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

WATER WELL REPORT

For TWDB use only Well No. 65-05-8R Located on map Received: 7/5/05

1) OWNER: Person having well drilled Southwestern Bell Address P. O. Box 1530, Houston, TX 01 Landowner Same Address Ellington Work Center - Conklin RD

2) LOCATION OF WELL: County Harris miles in direction from

Locate by sketch map showing landmarks, roads, creeks, highway number, etc.* or Give legal location with distances and directions from adjacent sections or survey lines. Labor League Block Survey Abstract No. (NW 1/4 NE 1/4 SW 1/4 SE 1/4) of Section see reverse side

3) TYPE OF WORK (Check): New Well X Deepening Reconditioning Plugging 4) PROPOSED USE (Check): Domestic Industrial Municipal Irrigation Test Well Other 5) TYPE OF WELL (Check): Rotary X Driven Dug Cable Jetted Bored

6) WELL LOG: Diameter of hole 4 in. Depth drilled 375 ft. Depth of completed well 375 ft. Date drilled 7-26-74 All measurements made from 0 ft. above ground level.

Table with columns: From (ft.), To (ft.), Description and color of formation material, 9) Casing, 10) SCREEN, Diameter (inches), Setting From (ft.), To (ft.), Slot Size

7) COMPLETION (Check): Straight well X Gravel packed Other Under reamed Open Hole

8) WATER LEVEL: Static level 230 ft. below land surface Date 7-26-74 Artesian pressure lbs. per square inch Date Depth to pump bowls, cylinder, jet, etc., 315 ft. below land surface.

11) WELL TESTS: Was a pump test made? Yes No X If yes, by whom? Yield: gpm with ft. drawdown after hrs. Bailer test gpm with ft. drawdown after hrs. Artesian flow gpm Temperature of water 12) WATER QUALITY: Was a chemical analysis made? Yes No X Did any strata contain undesirable water? Yes No. Type of water? depth of strata

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. NAME R. B. Lowry Water Well Drillers Registration No. 146 ADDRESS 4012 Fulton, P. O. Box 8707; Houston, TX 77009 (Signed) R. B. Lowry LOWRY WATER WELLS

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

TWDBE-WD-6

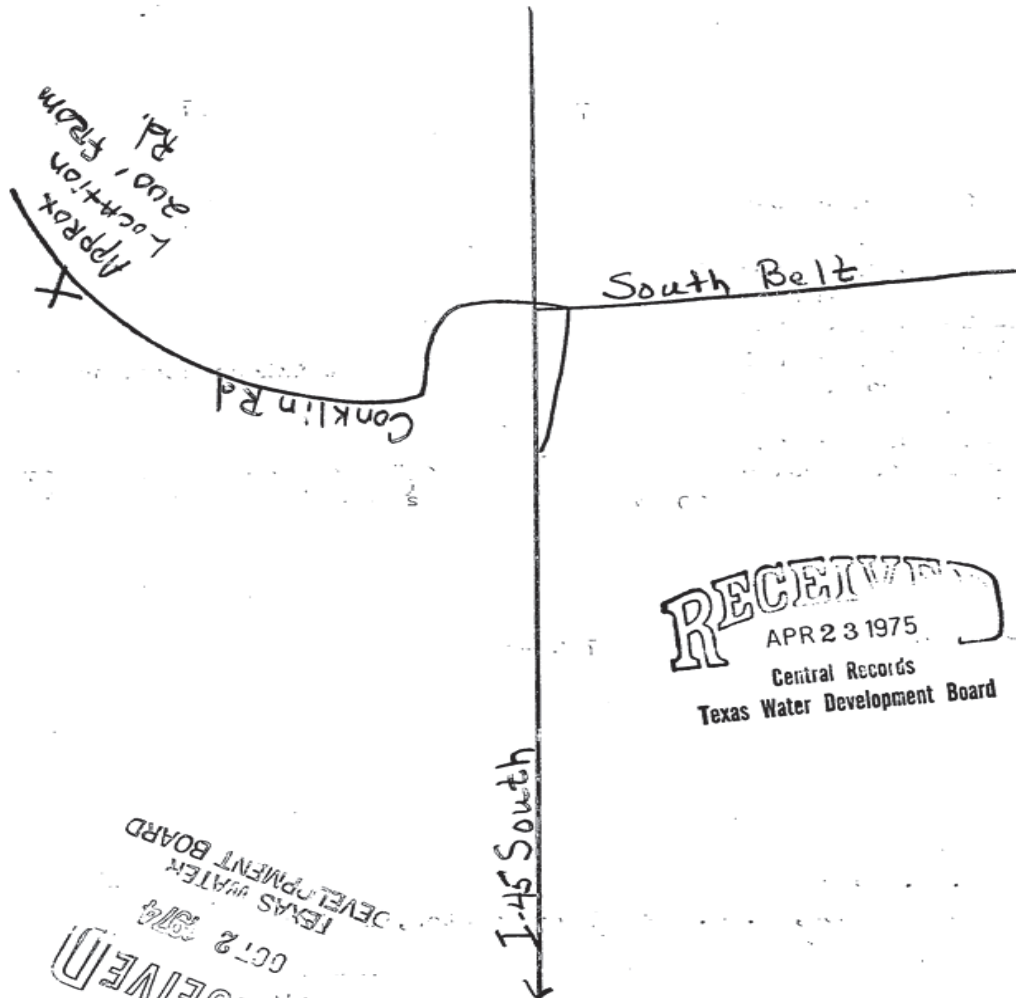

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

BECEIAED

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-CW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-CM-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TEXAS WATER COMMISSION COPY

**IMPORTANT NOTICE FOR PERSONS
 HAVING WELLS DRILLED CONCERNING
 PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

CEMENTING DATA

Cemented from 0 ft. to 166 ft.
Method used PRESSURE
Cemented by Michael M. Clung
(Company or Individual)

9) WATER LEVEL:
Static level 117 ft. below land surface Date 8-3-82
Artesian flow _____ gpm. Date _____

10) PACKERS: Type Depth
K-PACKER - RUBBER — 162'

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., _____ ft.

12) WELL TESTS: NONE
 Type Test: Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBS-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

1) OWNER:
Person having well drilled C.L. O'Neal Address 11518 Carla Hou Tx
(Name) (Street or RFD) (City) (State)
Landowner same Address _____ (City) (State)

2) LOCATION OF WELL:
County HARRIS, _____ 10 miles in N direction from HOUSTON
(N., E., S., W., etc.) (Town)

Locate by sketch map showing landmarks, roads, creeks, highway number, etc.*

Give legal location with distances and directions from adjacent sections or survey lines.
Labor _____ League _____
Block _____ Survey _____
Abstract No. _____
(SW $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section _____

3) TYPE OF WORK (Check):
 New Well Deepening Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Municipal Irrigation Test Well Other

5) TYPE OF WELL (Check):
 Rotary Driven Dug
 Cable Jetted Bored

6) WELL LOG:
Diameter of hole 6 1/2 in. Depth drilled 238 ft. Depth of completed well 238 ft. Date drilled 4-26-77
All measurements made from 1 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	110	Clay
110	145	sand Fine
145	170	clay
170	176	sand
176	190	clay
190	200	sand
200	217	clay
217	227	sand
227	238	sand hard

9) CASING:
Type: Old New Steel Plastic Other
Cemented from NONE ft. to NONE ft.

Diameter (inches)	Setting		Cage
	From (ft.)	To (ft.)	
4	0	228	

10) SCREEN:
Type Plastic
Perforated Slotted

Diameter (inches)	Setting		Slot Size
	From (ft.)	To (ft.)	
4	228	238	12

7) COMPLETION (Check):
 Straight wall Gravel packed Other
Under reamed Open Hole

8) WATER LEVEL:
Static level 135 ft. below land surface Date 4-26-77
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 200 ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes No If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes No
Did any strata contain undesirable water? Yes No
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

**IMPORTANT NOTICE FOR PERSONS
 HAVING WELLS DRILLED CONCERNING
 PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 273 ft.

12) WELL TESTS:
 Type Test: Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? Fresh Depth of strata 36'
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

TWDBE-GW-53

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

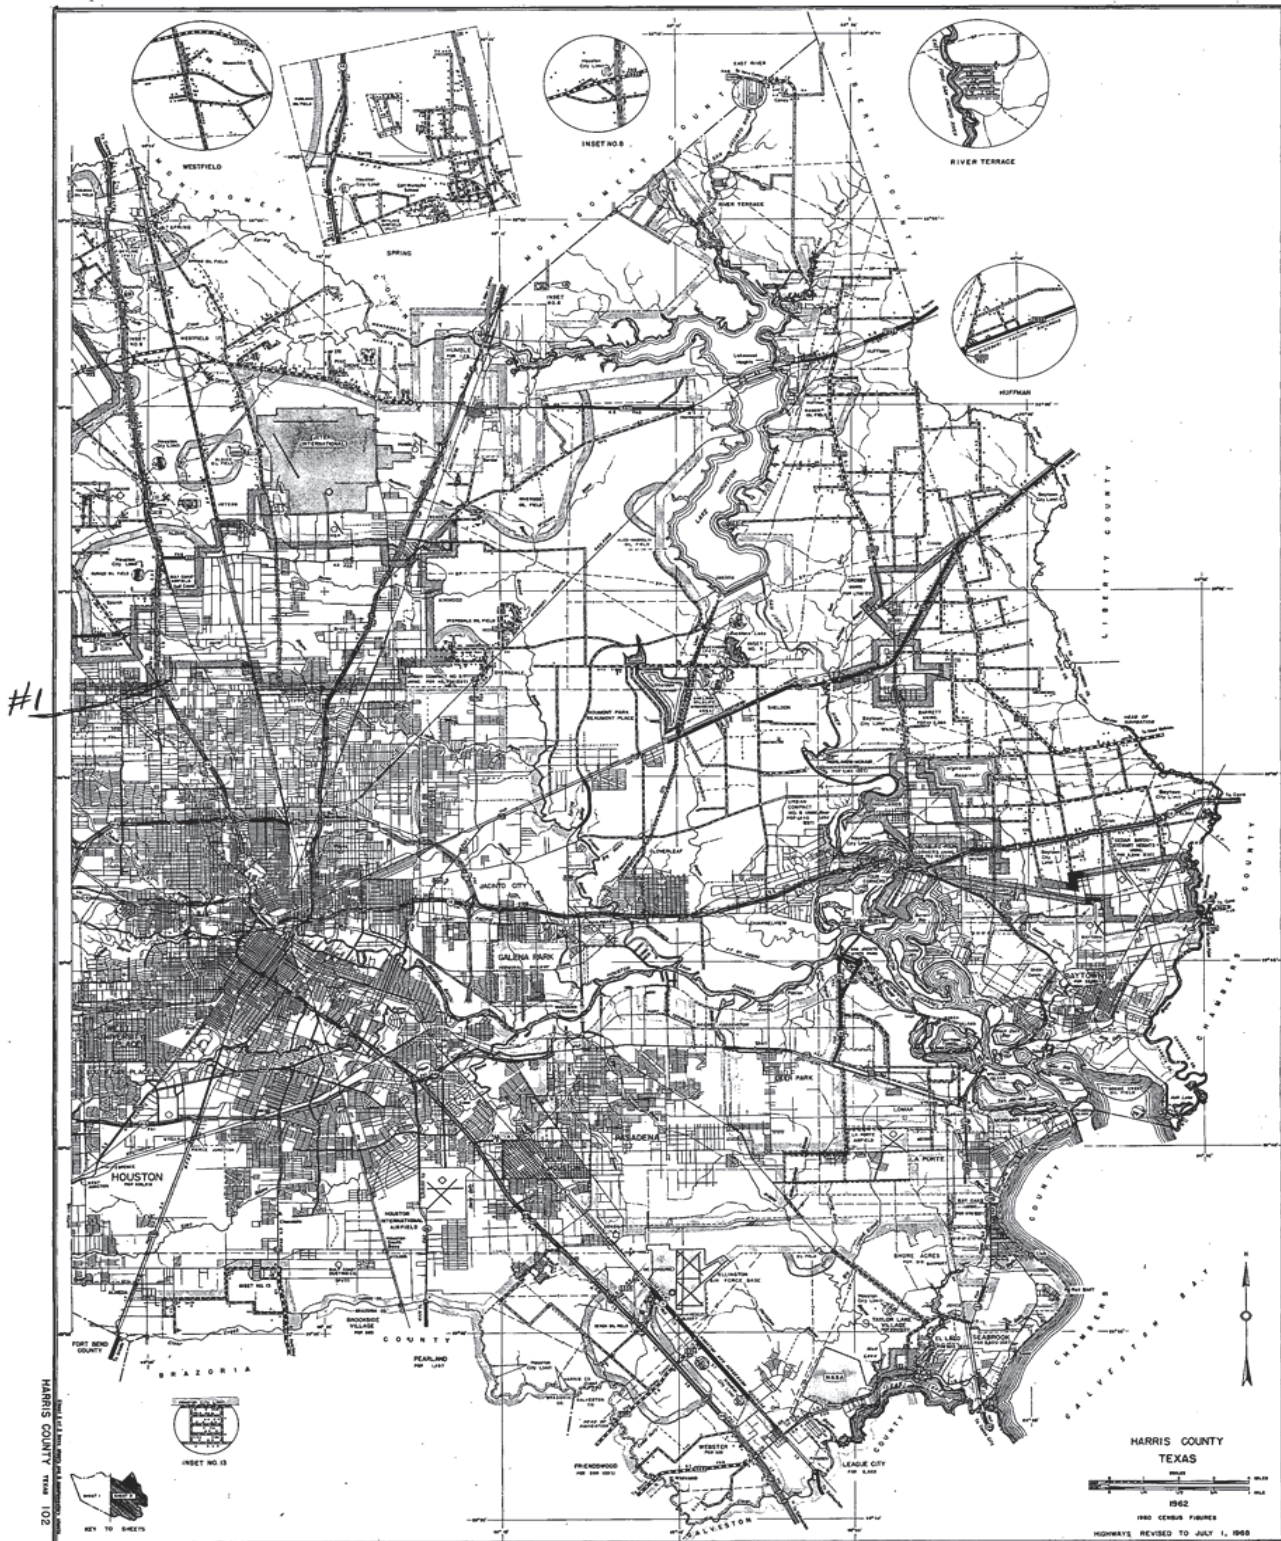

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

Perforated Slotted _____
Diameter (inches) 2 1/2" Setting From (ft.) 358 To (ft.) 338 Slot Size .012
2 1/2" blank 338 332

7) COMPLETION (Check):
Straight wall Gravel packed _____ Other _____
Under reamed _____ Open Hole _____

8) WATER LEVEL:
Static level 204 ft. below land surface Date 4-3-70
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 294 ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes _____ No If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No
Did any strata contain undesirable water? Yes _____ No _____
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

*Additional instructions on reverse side.

TWDBE-GW-53

GM

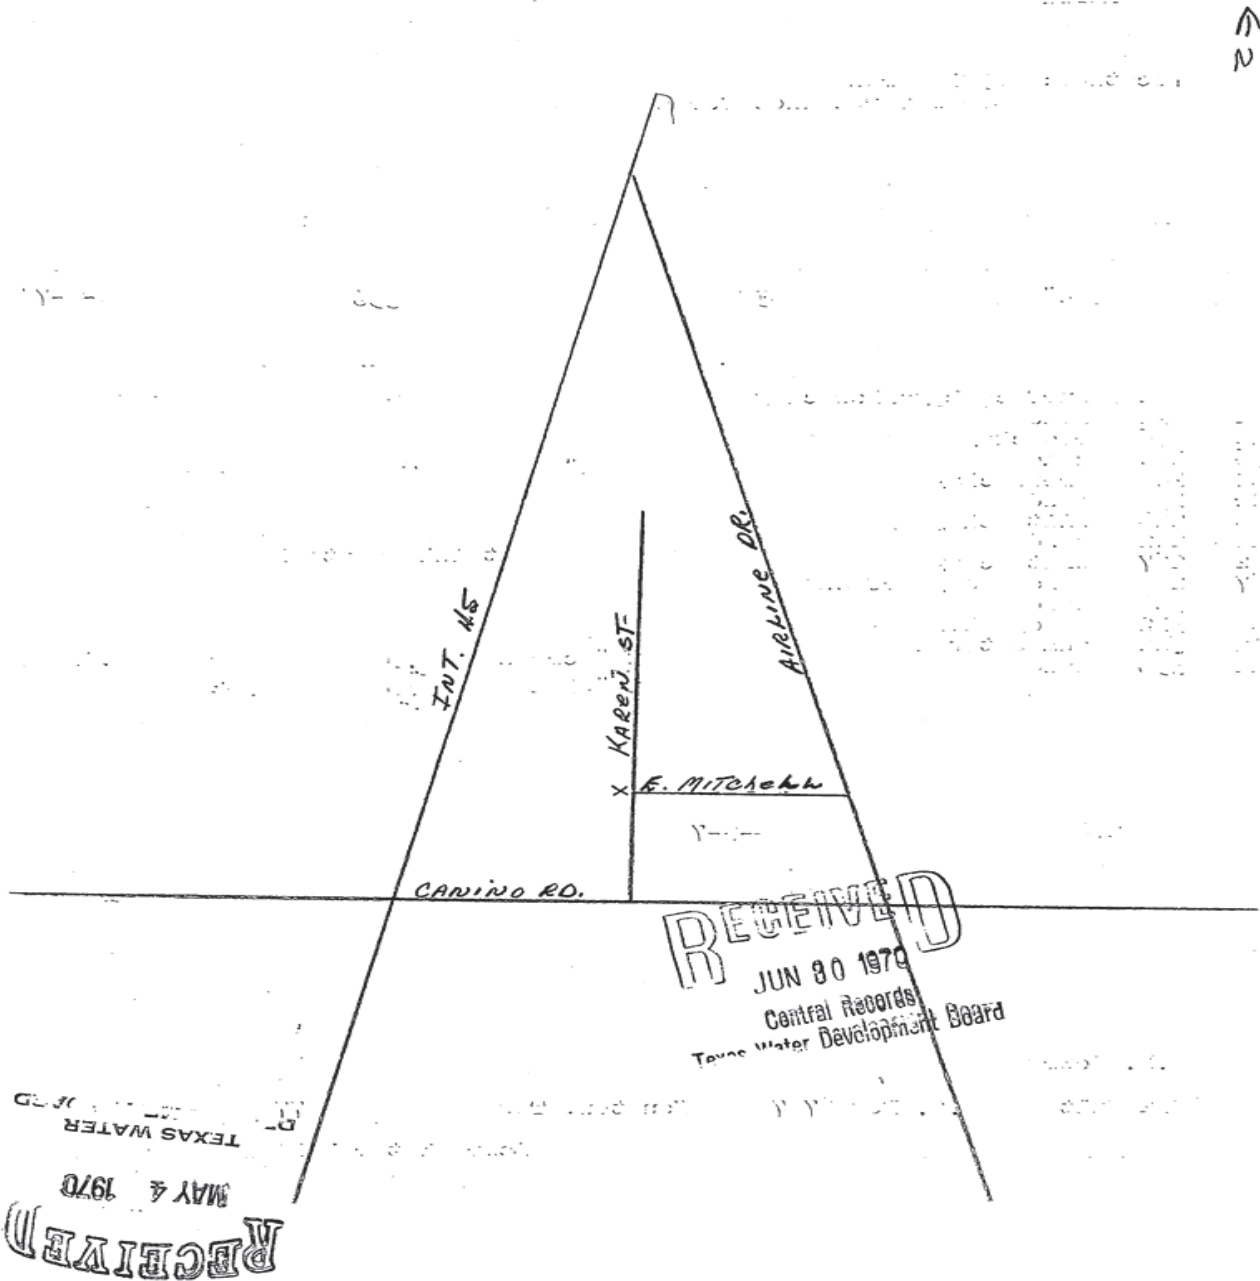

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:
CEMENTING DATA
Cemented from 0 ft. to 330 ft.
Method used PRESSURE
Cemented by SUGG WATER WELL DRILLING
(Company or Individual)

9) WATER LEVEL: Static level 2.30 ft. below land surface Date 5-27-80
Artesian flow _____ gpm. Date _____

RECEIVED
AUG 2 1982
CR/T/...

10) PACKERS: Type Depth
11) TYPE PUMP: Turbin Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 294 ft.

13) WATER QUALITY: Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata? _____
Was a chemical analysis made? Yes No

12) WELL TESTS: Type Test: Pump Bailer Jetted Estimated
Yield: 13.5 gpm with 22 ft. drawdown after 2 hrs.

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

**IMPORTANT NOTICE FOR PERSONS
HAVING WELLS DRILLED CONCERNING
PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

9) CEMENTING DATA [Rule 287.44(1)]
Cemented from 0 ft. to 15 ft. No. of Sacks Used 2
265 ft. to 365 ft. No. of Sacks Used 12
Method used Pressure
Cemented by CWW

10) SURFACE COMPLETION
 Specified Surface Slab Installed [Rule 287.44(2)(A)]
 Pileless Adapter Used [Rule 287.44(3)(B)]
 Approved Alternative Procedure Used [Rule 287.71]

11) WATER LEVEL:
Static level 295 ft. below land surface Date Oct. 7
Artesian flow _____ gpm. Date _____

12) PACKERS:
4x2 1/2 Type K Depth 358

13) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 347 ft.

14) WELL TESTS:
Type Test: Pump Bailor Jetted Estimated
Yield: 12 gpm with _____ ft. drawdown after _____ hrs.

15) WATER QUALITY:
Did the drilling penetrate any strata which contained undesirable constituents?
 Yes No. If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? Partials Depth of strata 25
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

Method used Halliburton
Cemented by Robinson Water Well Service, INC
Distance to septic system field lines or other concentrated contamination 220 ft.
Method of verification of above distance Engineer, Owner

10) SURFACE COMPLETION
 Specified Surface Slab Installed [Rule 338.44(2)(A)]
 Specified Steel Sleeve Installed [Rule 338.44(3)(A)]
 Pitless Adapter Used [Rule 338.44(3)(b)]
 Approved Alternative Procedure Used [Rule 338.71]

11) WATER LEVEL:
Static level 220 ft. below land surface Date 05-14-97
Artesian flow _____ gpm. Date _____

12) PACKERS:
FILE # _____ Type K Depth 360
EMP # _____ DATE OCT 28 1997 PERM # _____

13) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other N/A
Depth to pump bowls, cylinder, jet, etc., _____ ft.

14) WELL TESTS:
Type test: Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

15) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable constituents?
 Yes No If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

WATER WELL REPORT

For TWDB use only
Well No. _____
Located on map ND
Received: 02
JR

1) OWNER:
Person having well drilled BRIGANCE - PUMP SERVICE Address 348 AIRWAY HOUSTON TEXAS
(Name) (Street or RFD) (City) (State)
Landowner ASSEMBLY OF GOD CHURCH Address SWEETWATER & SMART ST. HOUSTON
(Name) (Street or RFD) (City) (State)

2) LOCATION OF WELL:
County HARRIS _____ miles in NORTH direction from HOUSTON, TEX
(N.E., S.W., etc.) (Town)

Locate by sketch map showing landmarks, roads, creeks, highways, etc.
WELL IN N.E. CORNER OF SWEETWATER & SMART ST.
GOLF BANK
SWEETWATER ST
HWY. 75
(Use reverse side if necessary)

Give legal location with distances and directions from adjacent sections or survey lines.
Labor _____ League _____
Block _____ Survey _____
Abstract No. _____
(NW¼ NE¼ SW¼ SE¼) of Section _____

3) TYPE OF WORK (Check):
New Well Deepening _____
Reconditioning _____ Plugging _____

4) PROPOSED USE (Check):
Domestic Industrial _____ Municipal _____
Irrigation _____ Test Well _____ Other _____

5) TYPE OF WELL (Check):
Rotary Driven _____ Dug _____
Cable _____ Jetted _____ Bored _____

6) WELL LOG:
Diameter of Hole 6 5/8 in. Depth drilled 341 ft. Depth of completed well 341 ft. Date drilled JULY 12, 72
All measurements made from 1 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	10	CLAY.
10	22	SAND
22	134	CLAY.
134	145	SAND
145	149	CLAY.
149	181	SAND
181	235	CLAY.

244	301	CLAY.
301	315	SAND
315	320	CLAY.
320	341	(Use SAND if necessary)

9) CASING:
Type: Old _____ New Steel Plastic _____ Other _____
Cemented from 220 ft. to 320 ft.
Diameter (inches) Setting From (ft.) To (ft.) Gage
4" 0 320
2 1/2" 320 326

10) SCREEN:
Type: SINED. 80 - PLASTIC - RIBBED.
Perforated _____ Slotted _____
Diameter (inches) Setting From (ft.) To (ft.) Slot Size
2 1/2" 326 341

7) COMPLETION (Check):
Straight wall _____ Gravel packed _____ Other TWO-STRING.
Under reamed _____ Open Hole _____

11) WELL TESTS:
Was a pump test made? Yes _____ No If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

8) WATER LEVEL:
Static level 212' ft. below land surface Date JULY 12, 72
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., ? ft. below land surface.

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No
Did any strata contain undesirable water? Yes _____ No
Type of water? _____ depth of strata 21'

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

8) WATER LEVEL:
Static level 225 ft. below land surface Date 4-78
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 273 ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes _____ No _____ If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No _____
Did any strata contain undesirable water? Yes _____ No _____
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

NAME C.A. Raymond, Jr. Water Well Drillers Registration No. TDL 774
(Type or Print)

ADDRESS 10011 Airline Dr. Houston TX. (City) (State)

(Signed) C.A. Raymond, Jr. RAYMOND WATER WELL DRILLING (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

2) LOCATION OF WELL:

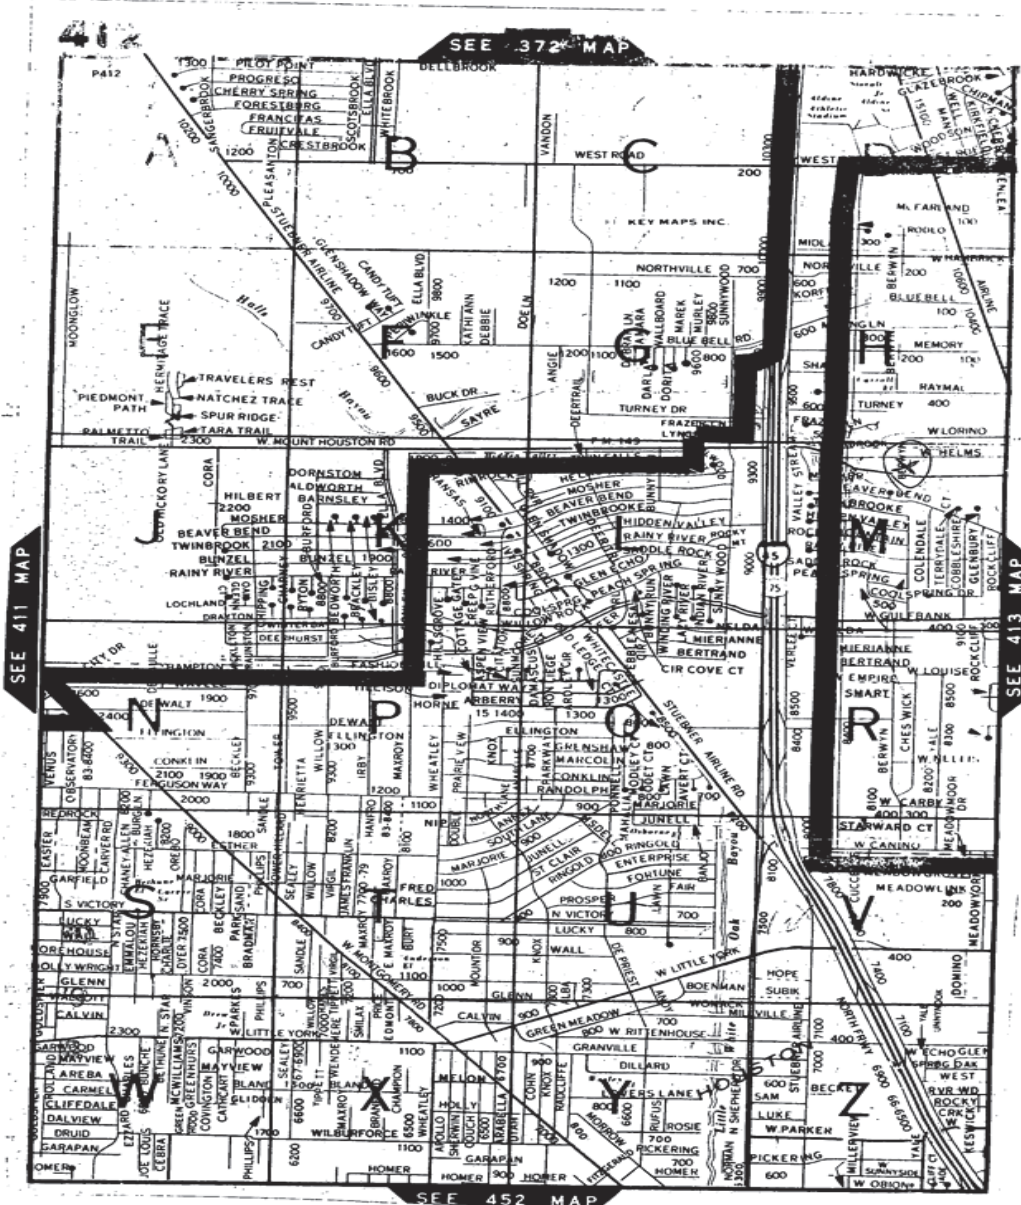

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBe-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

State of Texas WATER WELL REPORT

For TDWR use only Well No. 65-05-9 Located on map Received:

1) OWNER SAM MONAKINO JR Address 315 CARRY HO. TEX. (Name) (Street or RFD) (City) (State) (Zip) 2) LOCATION OF WELL: County HARRIS 1 miles in NORTH direction from HOUSTON (N.E., S.W., etc.) (Town)

Driller must complete the legal description to the right with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

Legal description: Section No. Block No. Township Abstract No. Survey Name Distance and direction from two intersecting section or survey lines See attached map.

3) TYPE OF WORK (Check): New Well Deepening Reconditioning Plugging 4) PROPOSED USE (Check): Domestic Industrial Public Supply Irrigation Test Well Other 5) DRILLING METHOD (Check): Mud Rotary Air Hammer Driven Bored Air Rotary Cable Tool Jetted Other

6) WELL LOG: Date drilled 8-25-86 7) BOREHOLE COMPLETION: Open Hole Straight Wall Underreamed Gravel Packed Other LEAD SEAL If Gravel Packed give interval from ft. to ft.

Table with 5 columns: From (ft.), To (ft.), Description and color of formation material, Dia. (in.), New or Used, Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial, Setting (ft.) From, To, Gage Casing Screen. Rows include 0-100 CLAY, 100-171 SAND, 171-238 CLAY, 238-245 SAND, 245-332 CLAY, 332-368 SAND.

CEMENTING DATA Cemented from 0 ft. to 353 ft. Method used PRESSURE Cemented by H&H WATER WELL (Company or Individual)

9) WATER LEVEL: Static level 262 ft. below land surface Date 8-25-86 Artesian flow gpm. Date

RECEIVED OCT 16 1986

10) PACKERS: Type Depth

TEXAS WATER COMMISSION

(Use reverse side if necessary)

13) WATER QUALITY: Did you knowingly penetrate any strata which contained undesirable water? Yes No If yes, submit "REPORT OF UNDESIRABLE WATER" Type of water? Depth of strata Was a chemical analysis made? Yes No

11) TYPE PUMP: Turbin Jet Remersible Cylinder Other Depth to pump bowls, cylinder, jet, etc., 336 ft.

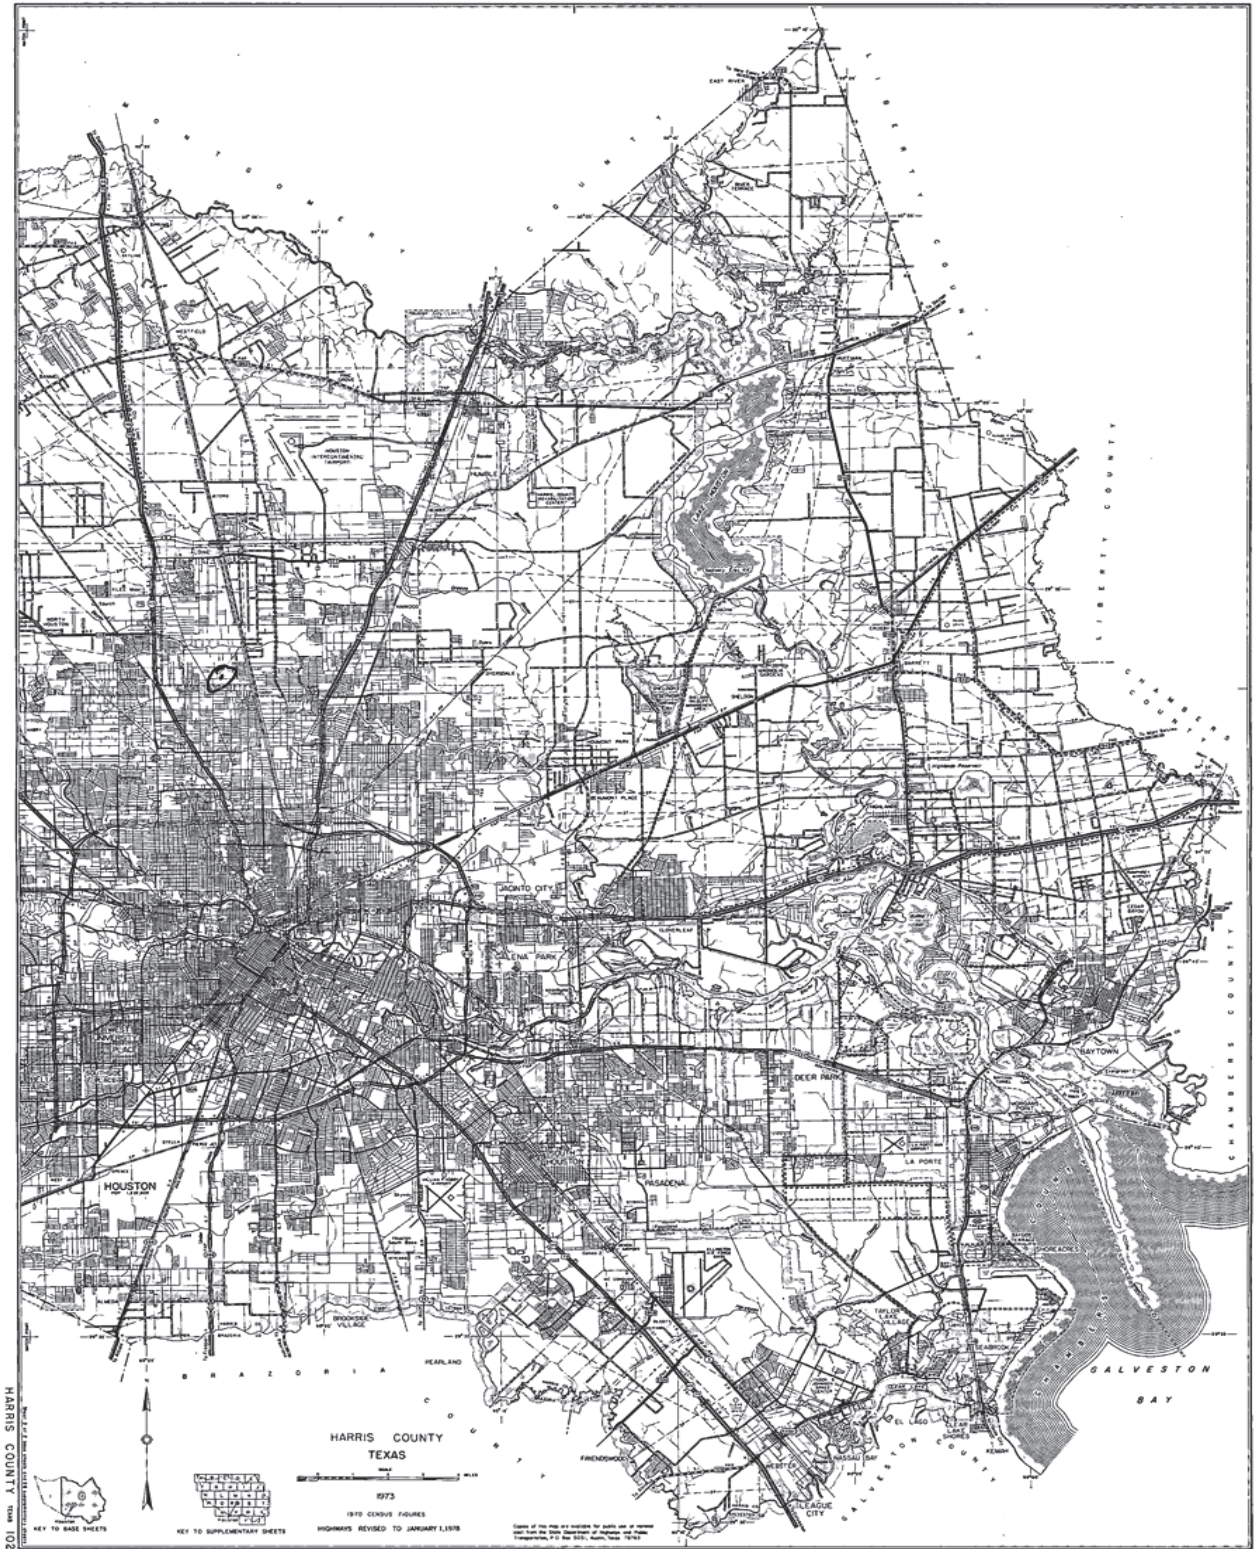

12) WELL TESTS: Type Test Pump Bailer Jetted Estimated Yield: 22 gpm with ft. drawdown after hrs.

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

(Signed) BRUND DIETZ (Water Well Driller) DIETZ PUMP WELL SERVICE (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

TWDB-WD-4

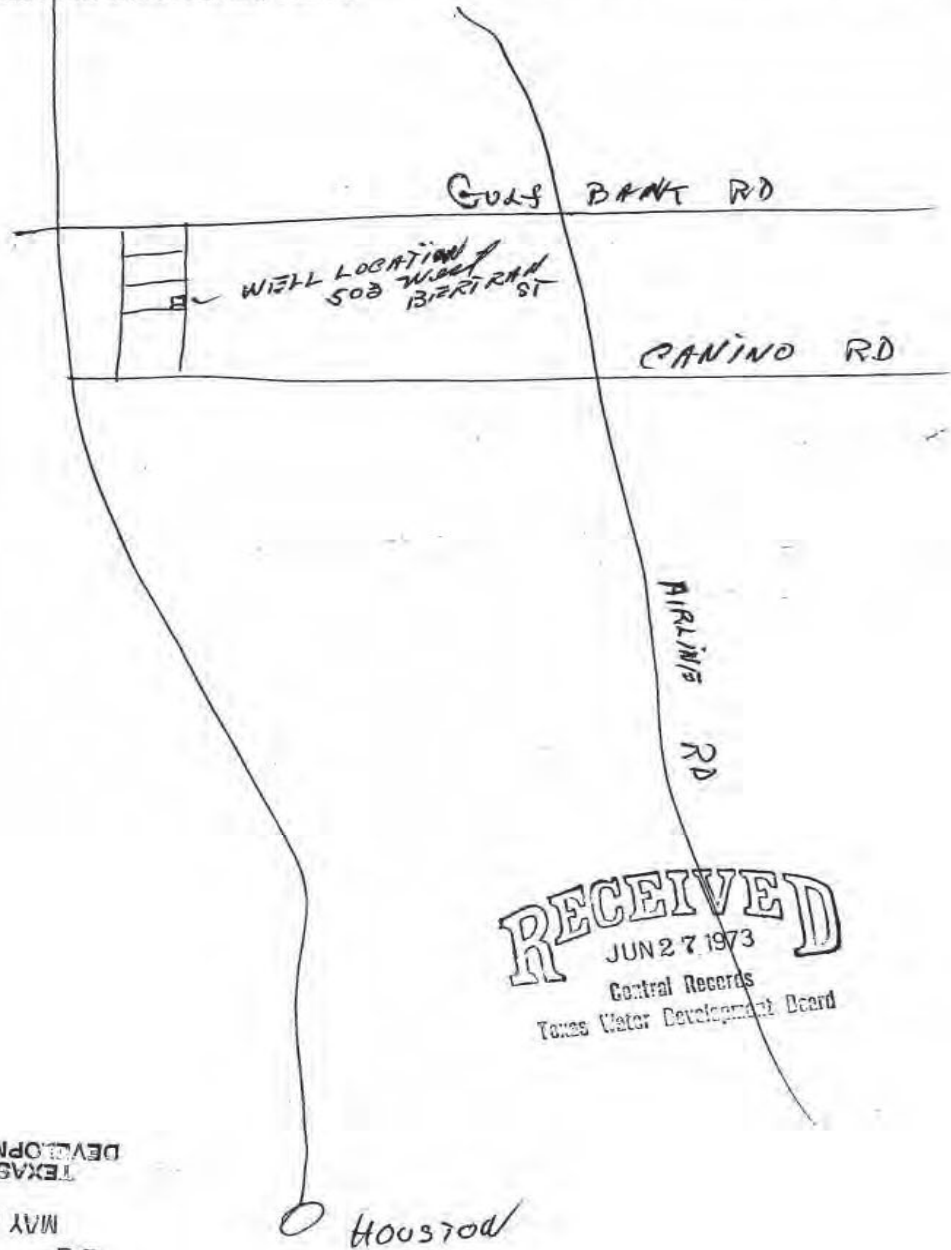

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TEXAS WATER COMMISSION COPY

**IMPORTANT NOTICE FOR PERSONS
HAVING WELLS DRILLED CONCERNING
PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

**IMPORTANT NOTICE FOR PERSONS
HAVING WELLS DRILLED CONCERNING
PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Advisory Council and the Texas Natural Resource Conservation Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provisions of Section 32.005 of the Texas Water Code, the Reporting of Well Logs, reads as follows:

"Every licensed driller drilling, deepening or otherwise altering a water well within this State shall make and keep a legible and accurate well log in accordance with the department rule on forms prescribed by the department. Not later than the 60th day after the completion or cessation of drilling, deepening, or otherwise altering the well, the licensed driller shall deliver or transmit by certified mail a copy of the well log to the department and to the owner of the well or the person for whom the well was drilled. Each copy of a well log, other than a department copy must include the name, mailing address, and telephone number of the department. The well log shall be recorded at the time of drilling, and must show the depth, thickness, and character of the strata penetrated, the location of water-bearing strata, the depth, size and character of casing installed, and any other information required by department rule. The department shall hold the contents of the well log confidential and not a matter of public record if it receives, by certified mail, a written request to do so from the owner or person for whom the well was drilled."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

TWDB-6-WD-6

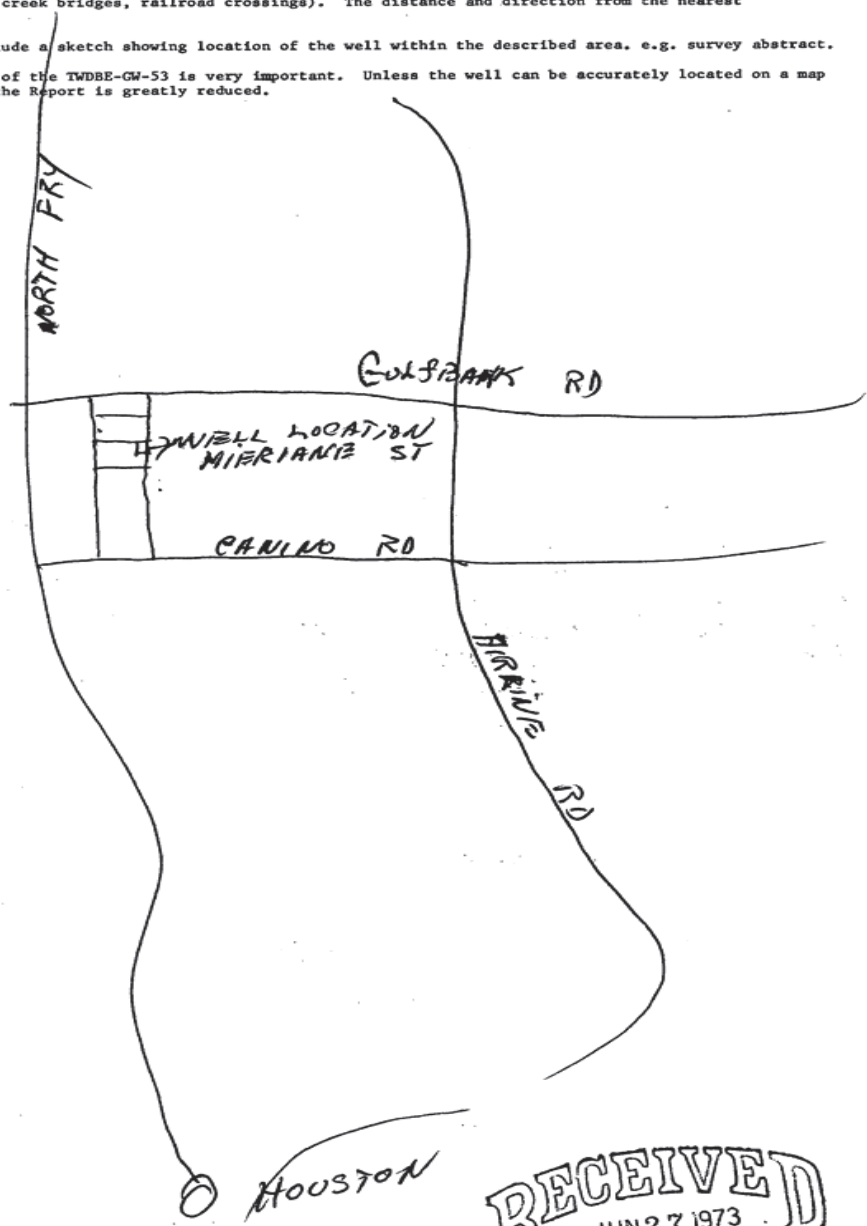

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TWDBE-WD-8

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the report is greatly reduced.

**IMPORTANT NOTICE FOR PERSONS
HAVING WELL DRILLED CONCERNING
CONFIDENTIALITY**

Section 32.005 of the Texas Water Code, concerning confidentiality information in the Reporting of Well Reports, reads as follows:

Every licensed driller drilling, deepening, or otherwise altering a water well in this state shall make and keep a legible and accurate well log in accordance with department rule on forms prescribed by the department. Not later than the 60th day after the completion or cessation of drilling, deepening, or otherwise altering the well, the licensed driller shall deliver or transmit by certified mail a copy of the well log to the department, the Texas Natural Resource Conservation Commission, and the owner of the well or the person for whom the well was drilled. The well log shall be recorded at the time of drilling and must show the depth, thickness, and character of the strata penetrated, the location of water-bearing strata, the depth, size, and character of casing installed, and any other information required by department rule. The department shall hold the contents of the well log confidential and not a matter of public record if it receives, by certified mail, a written request to do so from the owner or the person for whom the well was drilled.

The last sentence specifies the means whereby you may, if you wish, assure that logs of your wells will be kept confidential.

IMPORTANT NOTICE FOR PERSONS HAVING WELLS DRILLED CONCERNING PRIVILEGE OF CONFIDENTIALITY

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

or Give legal location with distances and directions from adjacent sections or survey lines.
Labor _____ League _____
Block _____ Survey _____
Abstract No. _____
(SW $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section _____

3) TYPE OF WORK (Check):
 Deepening
 Reconditioning
 Plugging

4) PROPOSED USE (Check):
 Domestic
 Industrial
 Municipal
 Irrigation
 Test Well
 Other

5) TYPE OF WELL (Check):
 Driven
 Dug
 Bored
 Cable
 Jetted

6) WELL LOG: Diameter of hole 6 3/4 in. Depth drilled 168 ft. ft. Depth of completed well 183 ft. ft. Date drilled 4-15-73
All measurements made from 0 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	25	Yellow Clay
25	30	Sand
30	40	Red Clay
40	55	Sand
55	100	Red Clay
100	160	Pink Clay
160	183	Sand

9) CASING: Type: Old XX Steel XXXX Other _____
Cemented from 168 ft up _____ ft. to _____ ft.

Diameter (inches)	Setting From (ft.)	To (ft.)	Cage
4"	1	168	40

10) SCREEN: Type Well Supplies Plastic Wrapped
Perforated _____ Slotted _____

Diameter (inches)	Setting From (ft.)	To (ft.)	Slot Size
2 1/2"	173	183	12 ga

(Use reverse side if necessary)

7) COMPLETION (Check):
 Gravel packed
 Other
 Under reamed
 Open Hole

8) WATER LEVEL: Static level _____ ft. below land surface Date _____
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., _____ ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes No _____ If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes No _____
Did any strata contain undesirable water? Yes _____ No _____
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns; river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDDE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

Signed: John A. Pyburn ALMENA WATER WELL SERV.

less attach electric log, chemical analysis, and other pertinent information, if available.

Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWBSE-CN-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

1) OWNER:
 Person having well drilled David Rector Address 215 Mitchell Rd. Houston, Texas
 (Name) (Street or RFD) (City) (State)
 Landowner Same Address _____
 (Name) (Street or RFD) (City) (State)

2) LOCATION OF WELL:
 County Harris miles in _____ direction from _____
 (N.E., S.W., etc.) (Town)

Locate by sketch map showing landmarks, roads, creeks, highway number, etc.*

*map on 65-05-9JJ
 413P (1)*

(Use reverse side if necessary)

Give legal location with distances and directions from adjacent sections or survey lines.

Labor _____ League _____
 Block _____ Survey _____
 Abstract No. _____
 (NW 1/4 NE 1/4 SW 1/4 SE 1/4) of Section _____

3) TYPE OF WORK (Check):
 New Well Deepening Reconditioning Plugging
 4) PROPOSED USE (Check):
 Domestic Industrial Municipal Irrigation Test Well Other
 5) TYPE OF WELL (Check):
 Rotary Driven Dug Cable Jetted Bored

6) WELL LOG:
 Diameter of hole 6 3/4 in. Depth drilled 337 ft. Depth of completed well 352 ft. Date drilled Feb. 1977
 All measurements made from 0 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0-15	15	Yellow clay
15-50	50	Red & yellow clay
50-57	57	Sand
57-60	60	Red clay
60-86	86	Red & gray clay
86-110	110	Red & yellow clay
110-125	125	Sand
125-136	136	Red & yellow clay
136-159	159	Sand
159-160	160	Rock
160-215	215	Red & gray clay
215-220	220	Sand
220-231	231	Red & gray clay
231-244	244	Sand 10 ga.
244-248	248	Red & gray clay
248-253	253	Sand (see over)

9) CASING:
 Type: Old _____ New _____ Steel _____ Plastic _____ Other _____
 Cemented from 337 up ft. to _____ ft.

Diameter (inches)	Setting		Gage
	From (ft.)	To (ft.)	
4	1	337	40 30

10) SCREEN:
 Type Well Supplies Inc. Plastic wrapped
 Perforated _____ Slotted _____
 Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Slot Size _____
 2 1/2 342 352 14

7) COMPLETION (Check):
 Straight wall Gravel packed Other
 Under reamed Open Hole

11) WELL TESTS:
 Was a pump test made? Yes _____ No _____ If yes, by whom? _____
 Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
 Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
 Artesian flow _____ gpm
 Temperature of water _____

8) WATER LEVEL:
 Static level 225 ft. below land surface Date Feb. 1977
 Artesian pressure _____ lbs. per square inch Date _____
 Depth to pump bowls, cylinder, jet, etc., 273 ft. below land surface.

12) WATER QUALITY:
 Was a chemical analysis made? Yes _____ No _____
 Did any strata contain undesirable water? Yes _____ No _____
 Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

 (Type or Print)
 ADDRESS 10011 Airline Dr, Houston Texas
 (Street or RFD) (City) (State)
 (Signed) _____ Raymond Water Well Drilling
 (Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

253-282	Red & blue clay
282-307	Sand
307	Rock streak
307-333	Red & gray clay
333-352	Sand 14 ga.

CEMENTING DATA
 Cemented from 0 ft. to 198 ft.
 Method used PRESSURE
 Cemented by Michael L. McChung (Company or Individual)

9) WATER LEVEL:
 Static level 135 ft. below land surface Date 9-28-83
 Artesian flow _____ gpm. Date _____

10) PACKERS: Type Depth
K-PACKER RUBBER 193

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
 Depth to pump bowls, cylinder, jet, etc., _____ ft.

12) WELL TESTS: NONE
 Type Test Pump Bailor Jetted Estimated
 Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
 Did you knowingly penetrate any strata which contained undesirable water? Yes No
 If yes, submit "REPORT OF UNDESIRABLE WATER"
 Type of water? _____ Depth of strata _____
 Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

9) CEMENTING DATA [Rule 287.44(1)]
Cemented from 365 ft. to 20 ft. No. of Sacks Used 27
20 ft. to 0 ft. No. of Sacks Used 44
Method used PORTLAND CEMENT AND SAND MIX
Cemented by John W Tolon

10) SURFACE COMPLETION
 Specified Surface Slab Installed [Rule 287.44(2)(A)] 4X5
 Pitless Adapter Used [Rule 287.44(3)(B)]
 Approved Alternative Procedure Used [Rule 287.71]

11) WATER LEVEL:
Static level 252 ft. below land surface Date 9-12-92
Artesian flow 20 gpm. Date 9-12-92

12) PACKERS: Type _____ Depth 365
PORTLAND CEMENT AND SAND MIX

13) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 315 ft.

14) WELL TESTS:
Type Test: Pump Bailor Jetted Estimated
Yield: 15 gpm with 0 ft. drawdown after 0 hrs.

15) WATER QUALITY:
Did the drilling penetrate any strata which contained undesirable constituents? Yes No
If "Yes," submit "REPORT OF UNDESIRABLE WATER" of water? SOFT Depth of strata 138'
a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

**IMPORTANT NOTICE FOR PERSONS
HAVING WELLS DRILLED CONCERNING
PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

WATER WELL REPORT

For TWDB use only
Well No. 65-05-8Q
Located on map Y05
Received: 7-20-74
dlr

1) OWNER:
Person having well drilled W.C. JONES (Name) Address 930 MITCHELL RD HOUSTON TEX (Street or RFD) (City) (State)
Landowner SAMIE (Name) Address _____ (Street or RFD) (City) (State)

2) LOCATION OF WELL:
County HARRIS miles in 12 N direction from HOUSTON TEX (N.E., S.W., etc.) (Town)

Locate by sketch map showing landmarks, roads, creeks, hiway number, etc.* OR Give legal location with distances and directions from adjacent sections or survey lines.

North
↑

(Use reverse side if necessary)

3) TYPE OF WORK (Check):
New Well _____ Deepening _____
Reconditioning _____ Plugging _____

4) PROPOSED USE (Check):
Domestic _____ Industrial _____ Municipal _____
Irrigation _____ Test Well _____ Other _____

5) TYPE OF WELL (Check):
Rough _____ Driven _____ Dug _____
Cable _____ Jetted _____ Bored _____

6) WELL LOG:
Diameter of hole 6 1/4 in. Depth drilled 346 ft. Depth of completed well 346 ft. Date drilled 7-20-74
All measurements made from 1 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0 - 31		CLAY
31 - 36		SAND
36 - 42		RED CLAY
42 - 51		RED SAND
51 - 72		RED CLAY
72 - 96		SAND
96 - 156		CLAY RED
156 - 186		SAND
186 - 323		SANDY SHALIE
323 - 346		SAND

9) CASING:
Type: Old Steel Plastic Other _____
Cemented from 325 ft. to SURFACE ft.
Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Gage _____
4 P.V.C. SCL 40

10) SCREEN:
Type UNDER BAR
Perforated _____ Slotted _____
Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Slot Size _____
2 1/2 346 336 14 GA
BLANK 363 - 323 P.V.C
SCL - 80

7) COMPLETION (Check):
Straight wall _____ LEAD SEAL _____ Gravel packed _____ Other _____
Under reamed _____ Open Hole _____

11) WELL TESTS:
Was a pump test made? No If yes, by whom? _____
Yield: 780 GPM with 6 ft. drawdown after 1 hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

8) WATER LEVEL:
Static level 220 ft. below land surface Date 7-20-74
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 273 ft. below land surface.

12) WATER QUALITY:
Was a chemical analysis made? Yes No
Did any strata contain undesirable water? Yes No
Type of water? _____ depth of strata 21 FT

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

NAME BRUNO DIETZ (Type or Print) Water Well Drillers Registration No. 323
ADDRESS 3051 ROTHERMEL HOUSTON TEXAS (Street or RFD) (City) (State)
(Signed) BRUNO DIETZ (Water Well Driller) DIETZ PUMP WELL SERVICE (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

TWDBE-W04

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TWDBE-GW-53

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TEXAS WATER COMMISSION COPY

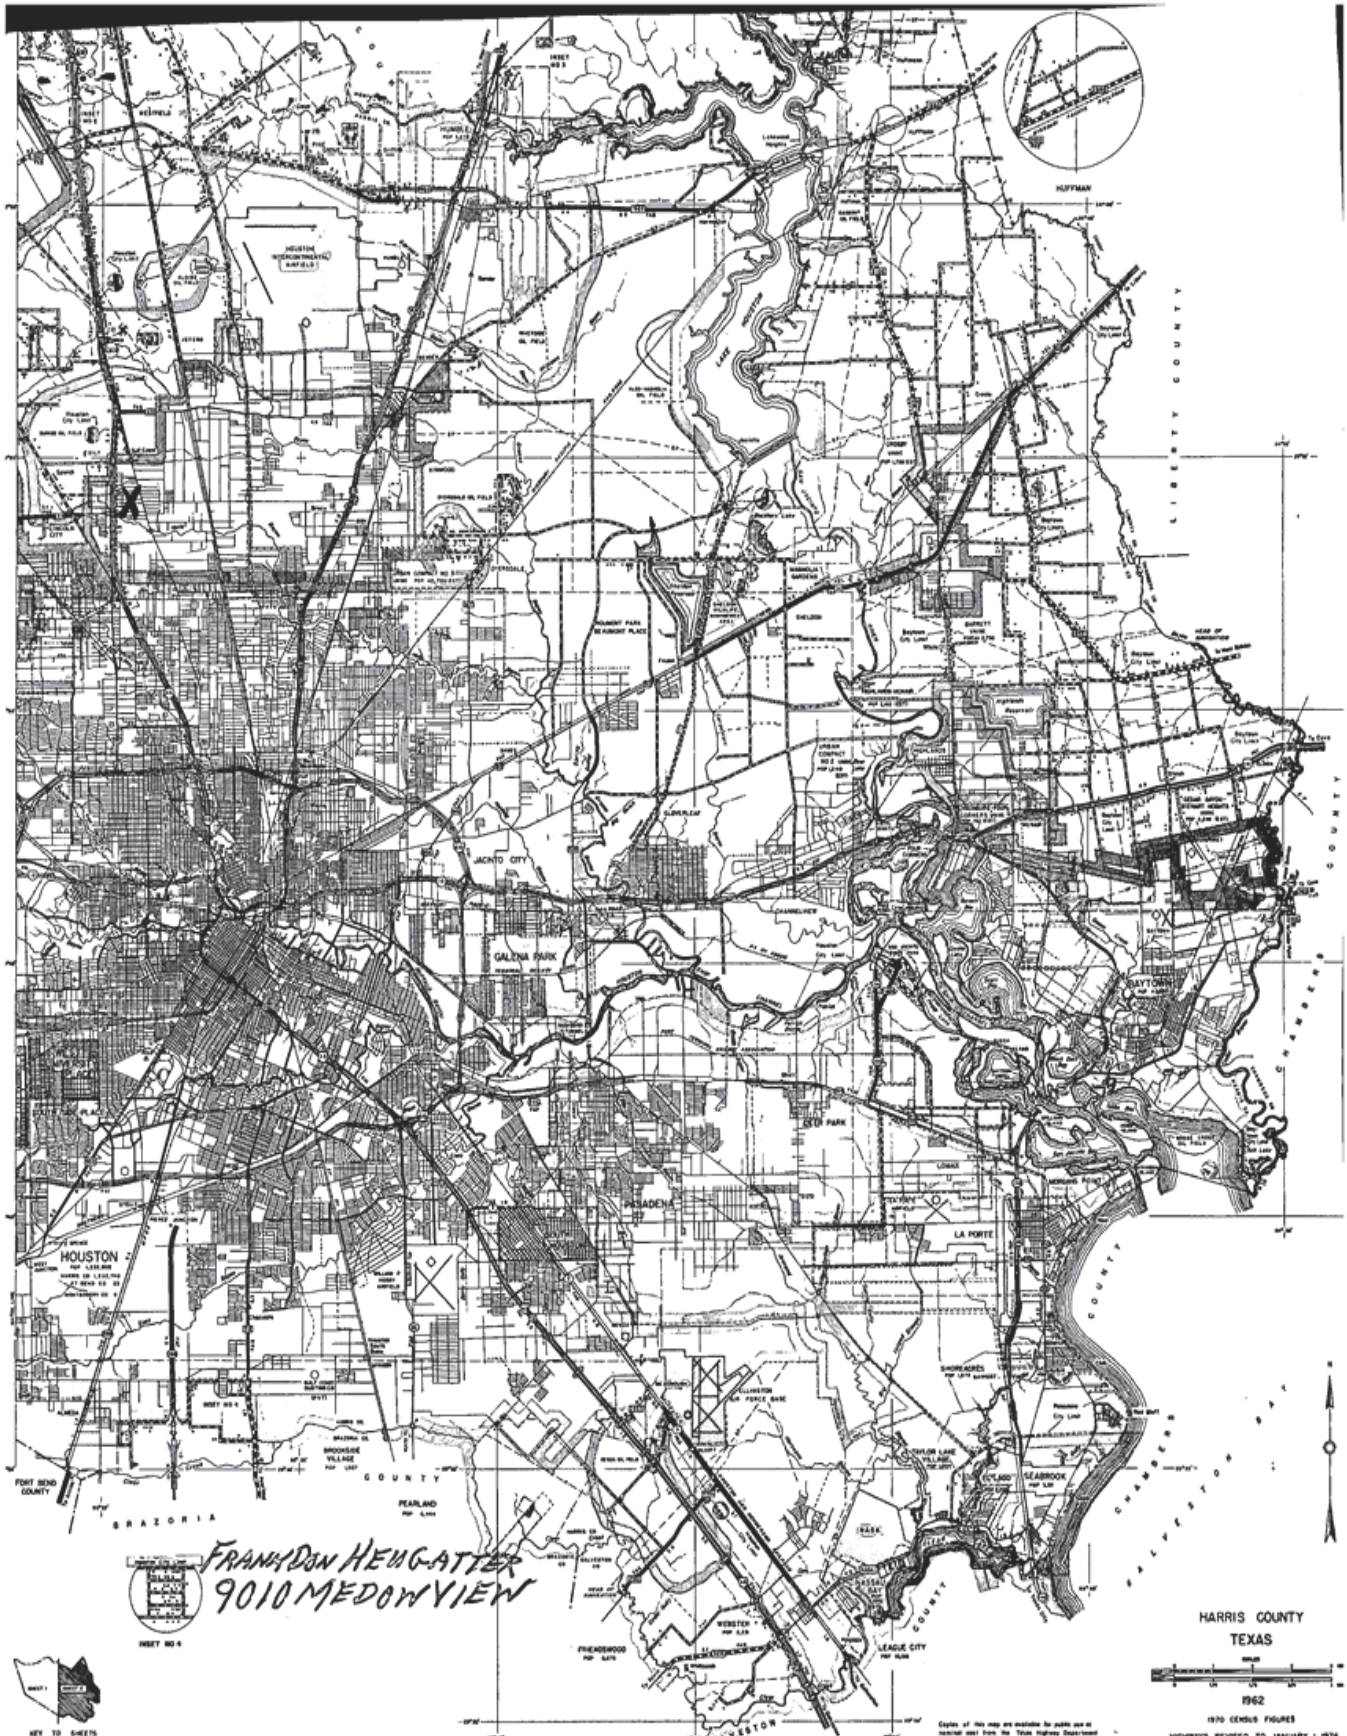

IMPORTANT NOTICE FOR PERSONS HAVING WELLS DRILLED CONCERNING PRIVILEGE OF CONFIDENTIALITY

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

2) LOCATION OF WELL: Harris County _____ miles in _____ direction from _____ (Town)

Driller must complete the legal description to the right with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

Legal description: Section No. _____ Block No. _____ Township _____
Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

See attached map. Map on 65-17-1F

3) TYPE OF WORK (Check):
 New Well Deepening
 Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Public Supply
 Irrigation Test Well Other _____

5) DRILLING METHOD (Check):
 Mud Rotary Air Hammer Driven Bored
 Air Rotary Cable Tool Jetted Other _____

6) WELL LOG:
Date drilled 10-18-82

DIAMETER OF HOLE			
Dia. (in.)	From (ft.)	To (ft.)	
4"	Surface		347
6 3/4"	"		323

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other Two String
If Gravel Packed give interval . . . from _____ ft. to _____ ft.

From (ft.)	To (ft.)	Description and color of formation material	Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.)	Gage Casing Screen
						From	To
0	8	grey clay					
8	38	red and grey					
38	46	Sand	4"	N	SCH 40 PVC	+18"	323
46	91	red and grey	2	N	SCH 80 Liner	313	323
91	98	sand	2	N	SCH 80 Screen	323	343
98	125	red and grey	2	N	SCH 80 Liner	343	347
125	131	sand					
131	154	red clay					
154	168	sand					
168	178	red and grey					
178	182	sand and sandstone					
182	225	red and grey					
225	231	sand and sandstone					
231	246	sand					
246	279	red clay					
279	289	sandstone and clay					
289	299	sandstone and sand					
299	300	rock					
300	312	red clay					
312	343	sand					
343	347	clay					

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:
Cemented from 323 ft. to 200 ft.
Method used Pressure
Cemented by Raymond Water Wells
(Company or Individual)

9) WATER LEVEL:
Static level 245 ft. below land surface Date 10-20-82
Artesian flow _____ gpm. Date _____

10) PACKERS: Type _____ Depth _____

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 294 ft.

12) WELL TESTS:
 Type Test Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

1) OWNER:
Person having well drilled MEMORIAL BAPTIST CHURCH 9101 AIRLINE HOUSTON TEX
(Name) (Street or RFD) (City) (State)
Landowner SAME Address _____
(Name) (Street or RFD) (City) (State)

2) LOCATION OF WELL:
County HARRIS _____ miles in NORTH direction from HOUSTON TEX
(N.E., S.W., etc.) (Town)

Locate by sketch map showing landmarks, roads, creeks, or highway number, etc.*
WELL AT 9101 AIRLINE
GULF BANK *AIRLINE DRIVE*
(Use reverse side if necessary)

Give legal location with distances and directions from adjacent sections or survey lines.
Labor _____ League _____
Block _____ Survey _____
Abstract No. _____
(NW¼ NE¼ SW¼ SE¼) of Section _____

3) TYPE OF WORK (Check):
New Well Deepening _____
Reconditioning _____ Plugging _____

4) PROPOSED USE (Check):
Domestic Industrial _____ Municipal _____
Irrigation _____ Test Well _____ Other _____

5) TYPE OF WELL (Check):
Rotary Driven _____ Dug _____
Cable _____ Jetted _____ Bored _____

6) WELL LOG:
Diameter of hole 6 3/4 in. Depth drilled 345 ft. Depth of completed well 345 ft. Date drilled APR. 6, 70
All measurements made from 1 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
311	316	BROKEN - ROCK - SAND
316	345	SAND

9) CASING:
Type: Old _____ New Steel Plastic _____ Other _____
Cemented from 250 ft. to 311 ft.

Diameter (inches)	Setting		Gage
	From (ft.)	To (ft.)	
4"	0	311	
2 1/2"	311	333	

10) SCREEN:
Type STAINLESS STEEL
Perforated RIBBED Slotted _____

Diameter (inches)	Setting		Slot Size
	From (ft.)	To (ft.)	
2 1/2"	333	345	#14

7) COMPLETION (Check):
Straight wall _____ Gravel packed _____ Other _____
Under reamed _____ Open Hole TWO-STRING

8) WATER LEVEL:
Static level 195' ft. below land surface Date APR. 8, 70
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 241 ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes _____ No If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No
Did any strata contain undesirable water? Yes _____ No
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

*Additional instructions on reverse side. TDWR-0392

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2 of the TDWR-0392 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

CEMENTING DATA
 Cemented from 287 ft. to 337 ft.
 Method used Haliburton
 Cemented by Bussell & Son, Inc. (Company or Individual)

9) WATER LEVEL:
 Static level 239 ft. below land surface Date 6-15-82
 Artesian flow _____ gpm. Date _____

10) PACKERS: Type Depth

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
 Depth to pump bowls, cylinder, jet, etc., _____ ft.

12) WELL TESTS:
 Type Test: Pump Bailer Jetted Estimated
 Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

 All measurements made from 0 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	5	Top Soil
5	12	Clay
12	20	Sand
20	195	Clay
195	268	Sand
268	275	Clay
275	296	Sand
296	298	Clay
298	305	Sand
305	320	Clay
320	358	Sand
358	363	Clay

9) CASING: Type: Old _____ New Steel Plastic _____ Other _____
 Cemented from 0 ft. to 462 ft.

Diameter (inches)	Setting From (ft.)	To (ft.)	Cage
6"	0	462	40
4"	457	462	40

10) SCREEN: Type Plastic
 Perforated _____ Slotted _____

Diameter (inches)	Setting From (ft.)	To (ft.)	Slot Size
4"	462	502	20

7) COMPLETION (Check): Straight wall _____ Gravel packed _____ Other
 Under reamed _____ Open Hole _____ (Lead Seal)

8) WATER LEVEL: Static level 220 ft. below land surface Date 5-16-73
 Artesian pressure _____ lbs. per square inch Date _____
 Depth to pump bowls, cylinder, jet, etc., 420 ft. below land surface.

11) WELL TESTS: Was a pump test made? Yes _____ No If yes, by whom? _____
 Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
 Bailor test _____ gpm with _____ ft. drawdown after _____ hrs.
 Artesian flow _____ gpm
 Temperature of water _____

12) WATER QUALITY: Was a chemical analysis made? Yes _____ No
 Did any strata contain undesirable water? Yes _____ No
 Type of water? good taste Depth of strata 48 ft.

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

CEMENTING DATA

Cemented from 0 ft. to 160 ft.
Method used Pressure Cement
Cemented by O. R. Billings (Company or Individual)

9) WATER LEVEL:
Static level 105 ft. below land surface Date 9-21-81
Artesian flow _____ gpm. Date _____

10) PACKERS: Type Depth
4 x 2 1/2 k-Packers Rubber 138

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 150 ft.

12) WELL TESTS: NONE
 Type Test Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

4) PROPOSED USE (Check):
 Domestic Industrial Municipal Irrigation Test Well Other

5) TYPE OF WELL (Check):
 Rotary Driven Dug Cable Jetted Bored

6) WELL LOG:
Diameter of hole 6 3/4 in. Depth drilled 362-340 ft. Depth of completed well 372 ft. Date drilled 7/12/77
All measurements made from _____ ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0-4	4	TOP SOIL (BLACK)
4-170	170	CLAY
170-180	180	SAND
180-240	240	RED + BLUE CLAY
240-260	260	SAND
260-340	340	RED CLAY
340-372	372	WHITE SAND

9) Casing:
Type: Old New Steel Plastic Other _____
Cemented from 0 ft. to 340 ft.
Diameter (inches) 4 Setting From (ft.) 0 To (ft.) 340 Gage 40

10) SCREEN: PLASTIC
Type: _____
Perforated Slotted
Diameter (inches) 2 1/2 Setting From (ft.) 362 To (ft.) 372 Slot Size 12

7) COMPLETION (Check):
 Straight wall Gravel packed Other Under reamed Open Hole

8) WATER LEVEL:
Static level 220 ft. below land surface Date 7/12/77
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., No pump ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes No If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes No
Did any strata contain undesirable water? Yes No
Type of water? FRESH depth of strata 32 ft.

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

County (N.E., S.W., etc.) (Town)

Legal description: Section No. _____ Block No. _____ Township _____
Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

See attached map.

3) TYPE OF WORK (Check):
 New Well Deepening Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Public Supply
 Irrigation Test Well Other _____

5) DRILLING METHOD (Check):
 Mud Rotary Air Hammer Driven Bored
 Air Rotary Cable Tool Jetted Other _____

6) WELL LOG:
Well # 4
Date drilled 12/11/84

DIAMETER OF HOLE		
Dia. (in.)	From (ft.)	To (ft.)
24	Surface	400
30	400	715 TD

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other _____
If Gravel Packed give interval ... from 400 ft. to 715 TD ft.

From (ft.)	To (ft.)	Description and color of formation material	Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.)		Gage Casing Screen
						From	To	
		<u>See attached well log</u>	20	N	Blank Steel Csg	12	400	
		<u>Chem Analysis</u>	14	N	Blank Steel Liner	298	410	
		<u>E-log</u>	14	N	SSHW Parlog Screen	410	445	035
						455	485	
						525	540	5

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

9) CEMENTING DATA [Rule 319.44(b)]
Cemented from Surf ft. to 400 ft.
Method used Halkinburton
Cemented by Halkinburton

10) SURFACE COMPLETION
 Specified Surface Slab Installed [Rule 319.44(c)]
 Pitless Adapter Used [Rule 319.44(d)]
 Approved Alternative Procedure Used [Rule 319.71]

11) WATER LEVEL:
Static level 261 ft. below land surface Date 2/12/85
Artesian flow _____ gpm. Date _____

12) PACKERS: Type _____ Depth _____
None

13) TYPE PUMP:
 Turbine Jet Submersible Cylinder
Depth to pump bowls, cylinder, jet, etc., 460 ft.

14) WELL TESTS:
Type Test: Pump Bailor Jetted Estimated
Yield: 500 gpm with 139 ft. drawdown after 9 hrs.

15) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I here by certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 12 will result in the log(s) being returned for completion and resubmittal.

TWDBE-WD-8

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

(Signed) R. B. Lowry LOWRY WATER WELLS
(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.
*Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDB-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

WATER WELL REPORT

For TDWR use only
Well No. 65-05-988
Located on map 125
Received: 7/9/81

1) OWNER Mr. Templeton Address 612 Gulfbank Houston, Tx.
(Name) (Street or RFD) (City) (State) (Zip)

2) LOCATION OF WELL:
County Harris 5 miles in NE direction from Houston
(N.E., S.W., etc.) (Town)

Driller must complete the legal description to the right with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

Legal description: Section No. _____ Block No. _____ Township _____
Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

See attached map. 125 Map on 65-05-744

3) TYPE OF WORK (Check):
 New Well Deepening
 Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Public Supply
 Irrigation Test Well Other _____

5) DRILLING METHOD (Check):
 Mud Rotary Air Hammer Driven Bored
 Air Rotary Cable Tool Jetted Other _____

6) WELL LOG:

Date drilled	DIAMETER OF HOLE		
	Dis. (in.)	From (ft.)	To (ft.)
<u>6/19/79</u>	<u>6-3/4</u>	Surface	<u>355</u>

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other 2 string cemented
If Gravel Packed give interval . . . from _____ ft. to _____ ft.

From (ft.)	To (ft.)	Description and color of formation material	Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.)		Gage Casing Screen
						From	To

WATER WELL REPORT

1) OWNER: Person having well drilled EC. FAUBACHER Address 604 GULF BANK RD.
(Name) (Street or RFD) (City) (State)
Landowner SAMIE Address HOUSTON, TEX.
(Name) (Street or RFD) (City) (State)

2) LOCATION OF WELL: County HARRIS, 1 miles in NO. direction from HOUSTON TEX.
(N.E., S.W., etc.) (Town)

Give legal location with distances and directions from adjacent sections or survey lines.
Labor _____ League _____
Block _____ Survey _____
Abstract No. _____
(NW¼ NE¼ SW¼ SE¼) of Section _____

3) TYPE OF WORK (Check): New Well Deepening _____ Reconditioning _____ Plugging _____
4) PROPOSED USE (Check): Domestic Industrial _____ Municipal _____ Irrigation _____ Test Well _____ Other _____
5) TYPE OF WELL (Check): Rotary Driven _____ Dug _____ Cable _____ Jetted _____ Bored _____

6) WELL LOG: Diameter of hole 6 1/2 in. Depth drilled 355 ft. Depth of completed well 355 ft. Date drilled AUG. 8, 74
All measurements made from 1 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	141	CLAY
141	149	SAND
149	210	CLAY
210	238	BROKEN ROCK
238	252	SAND
252	278	CLAY
278	298	BROKEN SAND
298	320	CLAY
320	355	SAND

9) CASING: Type: Old _____ New Steel _____ Plastic Other _____
Cemented from 225 ft. to 325 ft.
Diameter (inches) Setting From (ft.) To (ft.) Casing Size
4" 0 325
2 1/2" 325 - 340
10) SCREEN: Type PLASTIC - RIBBED
Perforated _____ Slotted _____
Diameter (inches) Setting From (ft.) To (ft.) Slot Size
2 1/2" 340 355 #14

7) COMPLETION (Check): Straight wall _____ Gravel packed _____ Other TWO - STANG.
Underreamed _____ Open Hole _____

11) WELL TESTS: Was a pump test made? Yes _____ No _____ If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

8) WATER LEVEL: Static level 218 ft. below land surface Date AUG. 8, 74
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 260 ft. below land surface.

12) WATER QUALITY: Was a chemical analysis made? Yes _____ No
Did any strata contain undesirable water? Yes _____ No
Type of water? _____ depth of strata 35'

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

WATER WELL REPORT

For TWDB use only
Well No. 25-12-1C
Located on map 1/25
Received: 7/21
12

1) OWNER:
Person having well drilled WILLIAM W. POWELL Address NICHOLE HARDY HOUSTON TEX.
(Name) (Street or RFD) (City) (State)
Landowner SAME Address _____
(Name) (Street or RFD) (City) (State)

2) LOCATION OF WELL:
County HARRIS _____ 14 miles in N direction from HOUSTON
(N.E., S.W., etc.) (Town)
Locate by sketch map showing _____ or Give legal location with distances and directions from adjacent sections or survey lines.
Labor _____ League _____
Block _____ Survey _____
Abstract No. _____
(NW¼ NE¼ SW¼ SE¼) of Section _____

3) TYPE OF WORK (Check):
New Well Deepening _____
Reconditioning _____ Plugging _____
4) PROPOSED USE (Check):
Domestic Industrial _____ Municipal _____
Irrigation _____ Test Well _____ Other _____
5) TYPE OF WELL (Check):
Rotary Driven _____ Dug _____
Cable _____ Jetted _____ Bored _____

6) WELL LOG:
Diameter of hole 6 3/4 in. Depth drilled 346 ft. Depth of completed well 346 ft. Date drilled 1-31-78
All measurements made from 0 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0	5	TOP SOIL
5	36	RED SHALE
36	50	RED SAND
50	104	RED SHALE
104	129	SAND
129	203	RED SHALE
203	227	SAND
227	328	RED SHALE
328	346	SAND

9) CASING:
Type: Old _____ New Steel _____ Plastic Other _____
Cemented from 0 ft. to 530 ft.
Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Casing _____
4" 1-6" ABOVE GROUND 330 SCH 40
2 1/2" 330 336 SCH 80

10) SCREEN:
Type PLASTIC
Perforated _____ Slotted _____
Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Slot Size _____
2 1/2" 336 346 .008

7) COMPLETION (Check):
Straight wall _____ Gravel packed _____ Other
Under reamed _____ Open Hole _____

8) WATER LEVEL:
Static level 242 ft. below land surface Date 2-1-78
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 315 ft. below land surface.

11) WELL TESTS:
Was a pump test made? JAMES H. SUGG JR No If yes, by whom?
Yield: 13.6 gpm with 12 ft. drawdown after 2 hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No
Did any strata contain undesirable water? Yes _____ No
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

CEMENTING DATA
Cemented from 370' ft. to Surface ft.
Method used Pressure Cement
Cemented by Raymond Water Wells
(Company or Individual)

9) WATER LEVEL:
Static level 230 ft. below land surface Date _____
Artesian flow _____ gpm. Date _____

10) PACKERS: Type "K" Depth 360

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 315 ft.

12) WELL TESTS:
 Type Test: Pump Bailer Jetted Estimated
Yield: 20 gpm with 12 ft. drawdown after 4 hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:
Cementing Data
Cemented from 280 ft. to 337 ft.
Method used PUMP
Cemented by BODE DRILLING Co. INC (Company or Individual)

9) WATER LEVEL:
Static level 226 ft. below land surface Date JULY 14, 81
Artesian flow _____ gpm. Date _____

10) PACKERS: Type Depth

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 2.83 ft.

12) WELL TESTS:
 Type Test Pump Bailor Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata 39'
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

TEXAS WATER COMMISSION COPY

**IMPORTANT NOTICE FOR PERSONS
HAVING WELLS DRILLED CONCERNING
PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

*Additional instructions on reverse side.
*DWR-0392

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2 of the TDWR-0392 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

CEMENTING DATA
Cemented from 324 ft. to Surface ft.
Method used Pressure
Cemented by RAYMOND WATER WELLS (Company or Individual)

9) WATER LEVEL:
Static level 200 ft. below land surface Date 7-79
Artesian flow _____ gpm. Date _____

10) PACKERS:
Type: R & L "K" Depth: 324

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
Other _____
Depth to pump bowls, cylinder, jet, etc., 252 ft.

12) WELL TESTS:
 Type Test: Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

9) CEMENTING DATA [Rule 287.44(1)]

Cemented from 496 ft. to 0 ft. No. of Sacks Used 30 Method used Halliburton

13) TYPE PUMP:

Turbine Jet Submersible Cylinder Depth to pump bowls, cylinder, jet, etc., 320 ft.

10) SURFACE COMPLETION

Specified Surface Slab Installed Pitless Adapter Used Approved Alternative Procedure Used

14) WELL TESTS:

Type Test: Pump Bailer Jetted Estimated Yield: gpm with ft. drawdown after hrs.

11) WATER LEVEL:

Static level 260 ft. below land surface Date 11/25/92 Artesian flow gpm. Date

15) WATER QUALITY:

Did the drilling penetrate any strata which contained undesirable constituents? Yes No If yes, submit "REPORT OF UNDESIRABLE WATER" Type of water? Depth of strata Was a chemical analysis made? Yes No

12) PACKERS:

Type Depth K 487

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief...

This form must be completed and filed with the department and owner within 60 days upon completion of the well.

WELL REPORT

A. WELL IDENTIFICATION AND LOCATION DATA

1) OWNER

Name: MARIA AZMAZAN Address: 13506 ROBERTSVALE City: Houston State: TX Zip: 77037

2) WELL LOCATION

County: HARRIS Physical Address: 13506 ROBERTSVALE City: Houston State: TX Zip: 77037

3) Type of Work

New Well Reconditioning Replacement Deepening

4) Proposed Use (check) Monitor Environmental Soil Boring Domestic Industrial Irrigation Injection Public Supply De-watering Testwell Rig Supply

If Public Supply well, were plans submitted? Yes No

5) NT

6) Drilling Date

Started: 2/21/02 Completed: 2/25/02

7) Drilling Method (check) Driven Air Rotary Mud Rotary Bored Air Hammer Cable Tool Jetted Other

8) Borehole Completion Open Hole Straight Wall Under-reamed Gravel Packed Other 2-STRINGS

If Gravel Packed give the interval from _____ ft. to _____ ft.

Casing, Blank Pipe, and Well Screen Data

Dia. (in.)	New Or Used	Steel, Plastic, etc. Perf., Slotted, etc Screen Mfg., if commercial	Setting (ft)		Gage Casing Screen
			From	To	
4"	N	PVC CASING	350	0	5H40
2.5"	N	PVC LINER	380	370	5H40
2.5"	N	PVC SCREEN	400	380	1008

9) Cementing Data

Cementing from 380 ft. to 0 ft. # of sacks used 18
 0 ft. to 15 ft. # of sacks used 12

Method Used: HALIBUTON Cementing By: ROBINSON WATER WELL SERVICE, INC. Distance to septic system, field or other concentrated contamination: 52 ft. Method of verification of above distance: THE ENGINEER'S

10) Surface Completion

Specified Surface Slab Installed Specified Surface Sleeve Installed Pitless Adapter Used Approved Alternative Procedure Used

MAR 19 2002 RECEIPT AMOUNT

11) Water Level

Static level: 200 ft. below Date: 2/25/02
 Artesian Flow _____ gpm. Date _____

12) Packers Type: K Depth: 370

13) Plugged Well plugged within 48 hours
 Casing left in well: Cement/Bentonite placed in well:

From (ft)	To (ft)	From (ft)	To (ft)	Sacks used

14) Type Pump

Turbine Jet Submersible Cylinder Other _____

Depth to pump bowls, cylinder, jet etc.: 300 ft.

15) Water Test

Type test: Pump Bailor Jetted Estimated

Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

16) Water Quality

Did you knowingly penetrate a strata which contain undesirable constituents. YES NO If yes, did you submit a REPORT OF UNDESIRABLE WATER

Type of water _____ Depth of Strata _____

Was a chemical analysis made Yes No

Company or individual's Name (type or print): ROBINSON WATER WELL SERVICE, INC. Lic. No. 54211 PKW (DAVID HELMS)

TDLR FORM 001WWD

White - TDLR Yellow - Owner Pink - Driller/Pump Installer

**IMPORTANT NOTICE FOR PERSONS
 HAVING WELL DRILLED CONCERNING
 CONFIDENTIALITY**

Section 32.005 of the Texas Water Code, concerning confidentiality information in the Reporting of Well Reports, reads as follows:

Every licensed driller drilling, deepening, or otherwise altering a water well in this state shall make and keep a legible and accurate well log in accordance with department rule on forms prescribed by the department. Not later than the 60th day after the completion or cessation of drilling, deepening, or otherwise altering the well, the licensed driller shall deliver or transmit by certified mail a copy of the well log to the department, the Texas Natural Resource Conservation Commission, and the owner of the well or the person for whom the well was drilled. The well log shall be recorded at the time of drilling and must show the depth, thickness, and character of the strata penetrated, the location of water-bearing strata, the depth, size, and character of casing installed, and any other information required by department rule. The department shall hold the contents of the well log confidential and not a matter of public record if it receives, by certified mail, a written request to do so from the owner or the person for whom the well was drilled.

The last sentence specifies the means whereby you may, if you wish, assure that logs of your wells will be kept confidential.

WATER WELL REPORT

For TDWR use only
Well No. 65-05-9AAA
Located on map 14077M
Received: _____

ATTENTION OWNER: Confidentiality Privilege Notice on Reverse Side

1) OWNER John Neverdowski Address 332 Hill Rd. Houston Texas 77037
(Name) (Street or RFD) (City) (State) (Zip)
2) LOCATION OF WELL: 332 Hill Rd.
County Harris miles in _____ direction from _____
(N.E., S.W., etc.) (Town)

Driller must complete the legal description to the right with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

Legal description:
Section No. _____ Block No. _____ Township _____
Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

See attached map. map on 65-05-9AAA

3) TYPE OF WORK (Check):
 New Well Deepening
 Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Public Supply
 Irrigation Test Well Other _____

5) DRILLING METHOD (Check):
 Mud Rotary Air Hammer Driven Bored
 Air Rotary Cable Tool Jetted Other _____

6) WELL LOG:
Date drilled 8-26-83

DIAMETER OF HOLE		
Dia. (in.)	From (ft.)	To (ft.)
6 3/4	Surface	370

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other _____
If Gravel Packed give interval . . . from _____ ft. to _____ ft.

From (ft.)	To (ft.)	Description and color of formation material
0	14	Top Soil & Clay
14	35	Sand
35	115	Clay & Small Sand Stratas
115	128	Sand
128	135	Clay
135	185	Sand
185	205	Clay & Sand Breaks
205	265	Sand
265	295	Sandy Clay
295	331	Sand
331	345	Clay
345	354	Sand
354	358	Clay
358	370	Sand

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.)		Gage Casing Screen
			From	To	
4	N	P.V.C.	0	350	
2	N	Galvanized Steel	339	360	
2	N	P.V.C.	360	370	.020

CEMENTING DATA
Cemented from 300 ft. to 350 ft.
Method used Halliburton
Cemented by Russell & Son, Inc.
(Company or Individual)

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

9) WATER LEVEL:
Static level 235 ft. below land surface Date 8-27-83
Artesian flow _____ gpm. Date _____

10) PACKERS: Type Depth

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 273' ft.

12) WELL TESTS:
 Type Test: Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

WATER WELL REPORT

For TWDB use only
Well No. _____
Located on map 110
Received: 7/21/10
dlc

1) OWNER: Person having well drilled E. D. BROOMFIELD Address 1425 HOPPIER RD TEXAS
(Name) (Street or RFD) (City) (State)
Landowner SAME Address _____ (City) (State)

2) LOCATION OF WELL: County HARRIS 5 miles in N direction from HOUSTON TEXAS
(N., E., S., W., etc.) (Town)

Locate by sketch map showing landmarks, roads, creeks, highway number, etc.* or Give legal location with distances and directions from adjacent sections or survey lines.

North
↑

(Use reverse side if necessary)

3) TYPE OF WORK (Check):
New Well Deepening
Reconditioning Plugging

4) PROPOSED USE (Check):
Domestic Industrial Municipal
Irrigation Test Well Other

5) TYPE OF WELL (Check):
Cable Driven Dug
Jetted Bored

6) WELL LOG:
Diameter of hole 6 1/2 in. Depth drilled 176 ft. Depth of completed well 176 ft. Date drilled 5-5-10
All measurements made from 1 ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material	9) Casing: Type: Old <input checked="" type="checkbox"/> Steel <input checked="" type="checkbox"/> Plastic <input type="checkbox"/> Other <input type="checkbox"/>
0	18	CLAY	2 Cemented from <u>1</u> - <u>160</u> ft. to _____ ft.
18	21	SAND	
21	41	RED CLAY	Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Casing _____
41	49	RED SAND	<u>4</u> P.V.C. SCL-40
49	91	SANDY SHALE	
91	102	SAND	
102	160	RED CLAY	10) SCREEN: Type <u>UNDER BAR</u>
160	176	SAND	Perforated <input type="checkbox"/> Slotted <input type="checkbox"/>
			Diameter (inches) <u>2 1/2</u> Setting From (ft.) <u>160</u> To (ft.) <u>176</u> Slot Size <u>14 GA</u>

7) COMPLETION (Check): CEMENT
Straight wall Gravel packed Other
Under reamed LEAD SEAL Open Hole

8) WATER LEVEL:
Static level 116 ft. below land surface Date _____
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., _____ ft. below land surface.

11) WELL TESTS:
Was a pump test made? Yes If yes, by whom? _____
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

12) WATER QUALITY:
Was a chemical analysis made? Yes
Did any strata contain undesirable water? Yes
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

NAME BRUNO DIETZ Water Well Drillers Registration No. 323
(Type or Print)

ADDRESS 3051 ROTHERMEL HOUSTON TEXAS
(Street or RFD) (City) (State)

(Signed) BRUNO Dietz DIETZ PUMP WELL SERVICE
(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

088-904

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-CN-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

Licensed Driller/Pump Installer Apprentice

TDLR FORM 6001WWD White - TDLR Yellow - Owner Pink - Driller/Pump Installer

**IMPORTANT NOTICE FOR PERSONS
HAVING WELL DRILLED CONCERNING
CONFIDENTIALITY**

Section 32.005 of the Texas Water Code, concerning confidentiality information in the Reporting of Well Reports, reads as follows:

Every licensed driller drilling, deepening, or otherwise altering a water well in this state shall make and keep a legible and accurate well log in accordance with department rule on forms prescribed by the department. Not later than the 60th day after the completion or cessation of drilling, deepening, or otherwise altering the well, the licensed driller shall deliver or transmit by certified mail a copy of the well log to the department, the Texas Natural Resource Conservation Commission, and the owner of the well or the person for whom the well was drilled. The well log shall be recorded at the time of drilling and must show the depth, thickness, and character of the strata penetrated, the location of water-bearing strata, the depth, size, and character of casing installed, and any other information required by department rule. The department shall hold the contents of the well log confidential and not a matter of public record if it receives, by certified mail, a written request to do so from the owner or the person for whom the well was drilled.

The last sentence specifies the means whereby you may, if you wish, assure that logs of your wells will be kept confidential.

TEXAS WATER COMMISSION COPY

**IMPORTANT NOTICE FOR PERSONS
HAVING WELLS DRILLED CONCERNING
PRIVILEGE OF CONFIDENTIALITY**

The Water Well Drillers Board and the Texas Water Commission are concerned that some persons having wells drilled may not be aware of the confidentiality privilege provision of Section 5 of the Water Well Drillers Act. Section 5, the Reporting of Well Logs, reads as follows:

"Every licensed water well driller drilling, deepening or otherwise altering a water well within this State shall make and keep, or cause to be made and kept, a legible and accurate well log, and within 60 days from the completion or cessation of drilling, deepening or otherwise altering such a water well, shall deliver or transmit by certified mail a copy of such well log to the Commission, and the owner thereof or the person having had such well drilled. Each copy of a well log, other than a Commission copy, shall include the name, mailing address, and telephone number of the Board and the Commission. The well log required herein shall at the request in writing to the Commission, by certified mail, by the owner or the person having such well drilled be held as confidential matter and not made of public record."

The last sentence specifies the means whereby you can, if you wish, assure that logs of your wells will be kept confidential.

2) LOCATION OF WELL: County Harris 12 miles in NW direction from Houston (Town) (NE, SW, etc.)

Driller must complete the legal description below with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

LEGAL DESCRIPTION:

Section No. Block No. Township Abstract No. Survey Name Distance and direction from two intersecting section or survey lines

SEE ATTACHED MAP No Map

3) TYPE OF WORK (Check):

New Well Deepening Reconditioning Plugging

4) PROPOSED USE (Check):

Domestic Industrial Monitor Public Supply Irrigation Test Well Injection De-Watering

5) DRILLING METHOD (Check):

Mud Rotary Air Hammer Jetted Bored Air Rotary Cable Tool Other

6) WELL LOG:

Date Drilling: 7-18-91 Started 7-19-91 Completed

DIAMETER OF HOLE

Table with columns: Dia. (in.), From (ft.), To (ft.). Rows: 6 3/4, 0, 450

7) BOREHOLE COMPLETION:

Open Hole Straight Wall Underreamed Gravel Packed Other 2 String Cemented

From (ft.) To (ft.) Description and color of formation material

Table with columns: From (ft.), To (ft.), Description and color of formation material. Rows: 0-60 Clay, 60-120 Sand, 120-200 Clay, 200-300 Sand, 300-360 Clay, 360-450 Sand

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

Table with columns: Dia. (in.), New or Used, Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., If commercial, Setting (ft.) From To, Gauge Casting Screen. Rows: 4" N Casing PVC 0 427, 2 1/2" N Liner PVC 425 435, 2 1/2" N Screen PVC 435 450

RECEIVED APR 03 1992

9) CEMENTING DATA [Rule 287.44(1)]

Cemented from 270 ft. to 427 ft. No. of Sacks Used 10 0 ft. to 15 ft. No. of Sacks Used 3

Method used Halliburton Cemented by Robinson Water Well

13) TYPE PUMP:

Turbine Jet Submersible Other Depth to pump bowls, cylinder, jet, etc., 220 ft.

14) WELL TESTS:

Type Test: Pump Bailer Jetted Estimated Yield: gpm with ft. drawdown after hrs.

15) WATER QUALITY:

Did the drilling penetrate any strata which contained undesirable constituents? Yes No If yes, submit "REPORT OF UNDESIRABLE WATER" Type of water? Depth of strata Was a chemical analysis made? Yes No

10) SURFACE COMPLETION

Specified Surface Slab Installed Pitless Adapter Used Approved Alternative Procedure Used

11) WATER LEVEL:

Static level 170 ft. below land surface Date 7-19-91 Artesian flow gpm. Date

12) PACKERS:

Type Depth K=Packer 425

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

TWDBE-WD-6

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

Please attach electric log, chemical analysis, and other pertinent information, if available.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TWDBE-WD-6

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

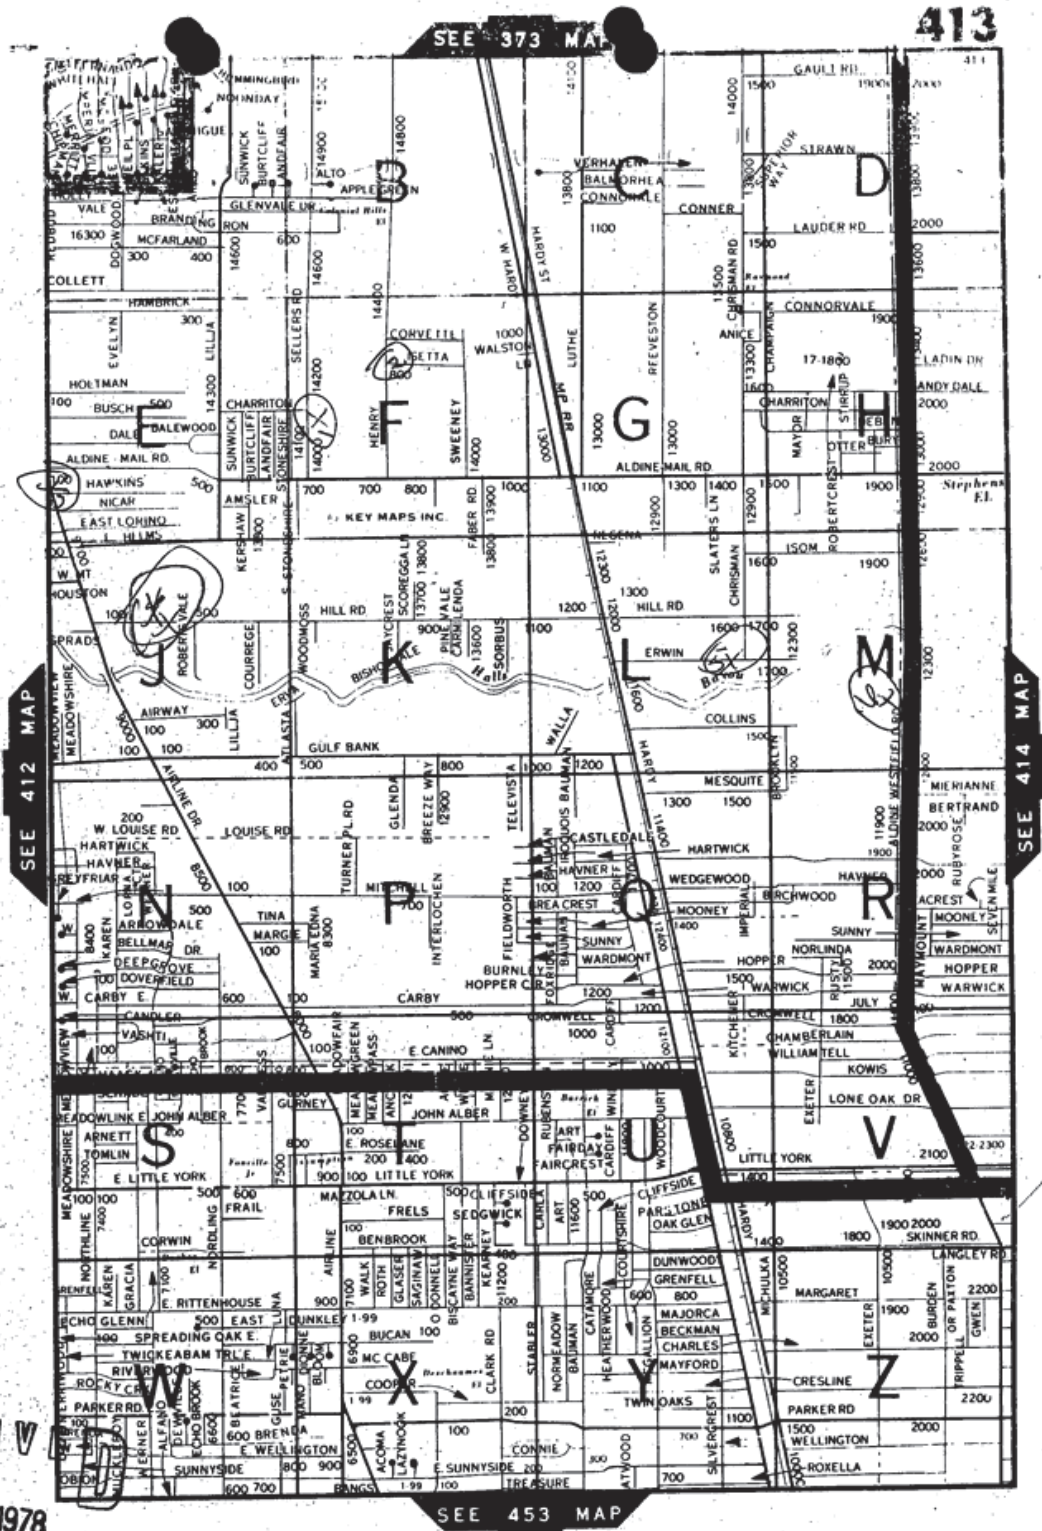

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

15) WATER QUALITY:
 Did the drilling penetrate any strata which contained undesirable constituents?
 Yes No If yes, submit "REPORT OF UNDESIRABLE WATER"
 Type of water? _____ Depth of strata _____
 Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

TWDB-GW-53

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

(Signed) R. B. Lowry Lowry Water Wells
Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

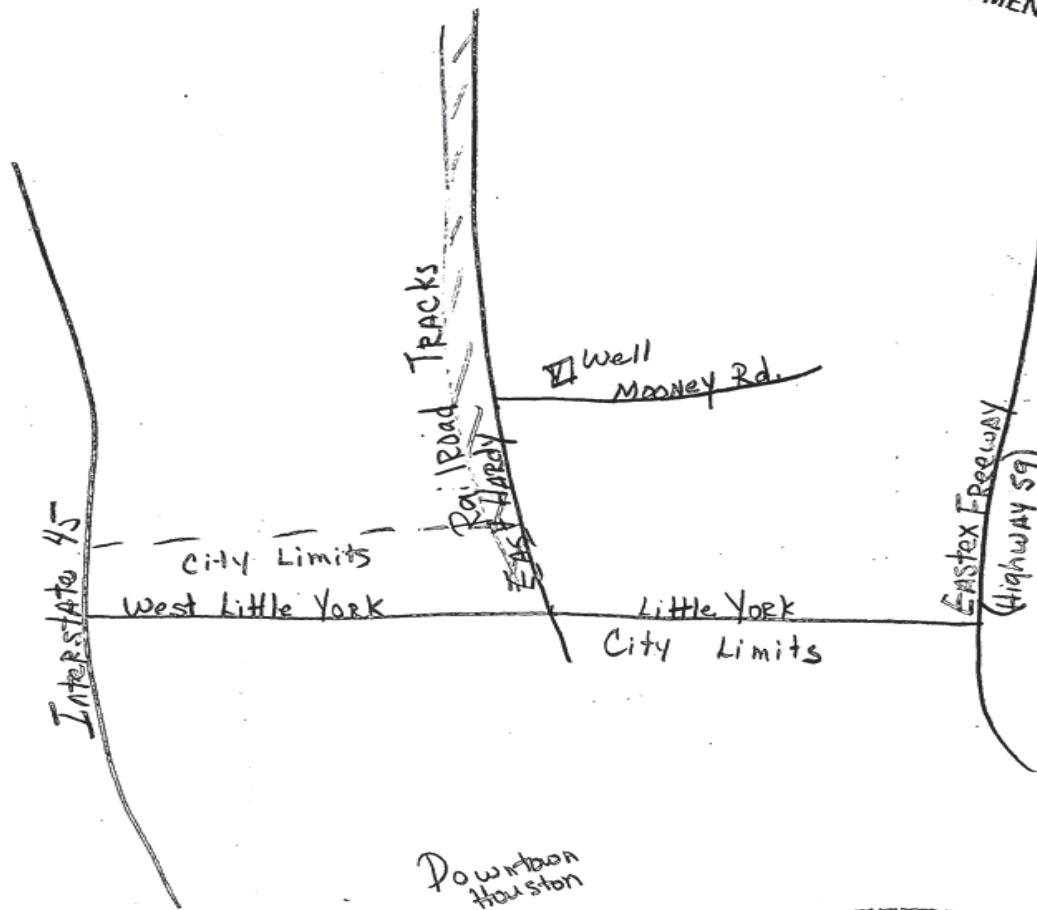

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

CEMENTING DATA
Cemented from 226 ft. to 286 ft.
Method used _____
Cemented by myself (Company or Individual)

9) WATER LEVEL:
Static level 220 ft. below land surface Date _____
Artesian flow _____ gpm. Date _____

10) PACKERS: Type _____ Depth _____

11) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 280 ft.

12) WELL TESTS:
 Type Test Pump Bailer Jetted Estimated
Yield: 307 gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

TWDBE-GW-53

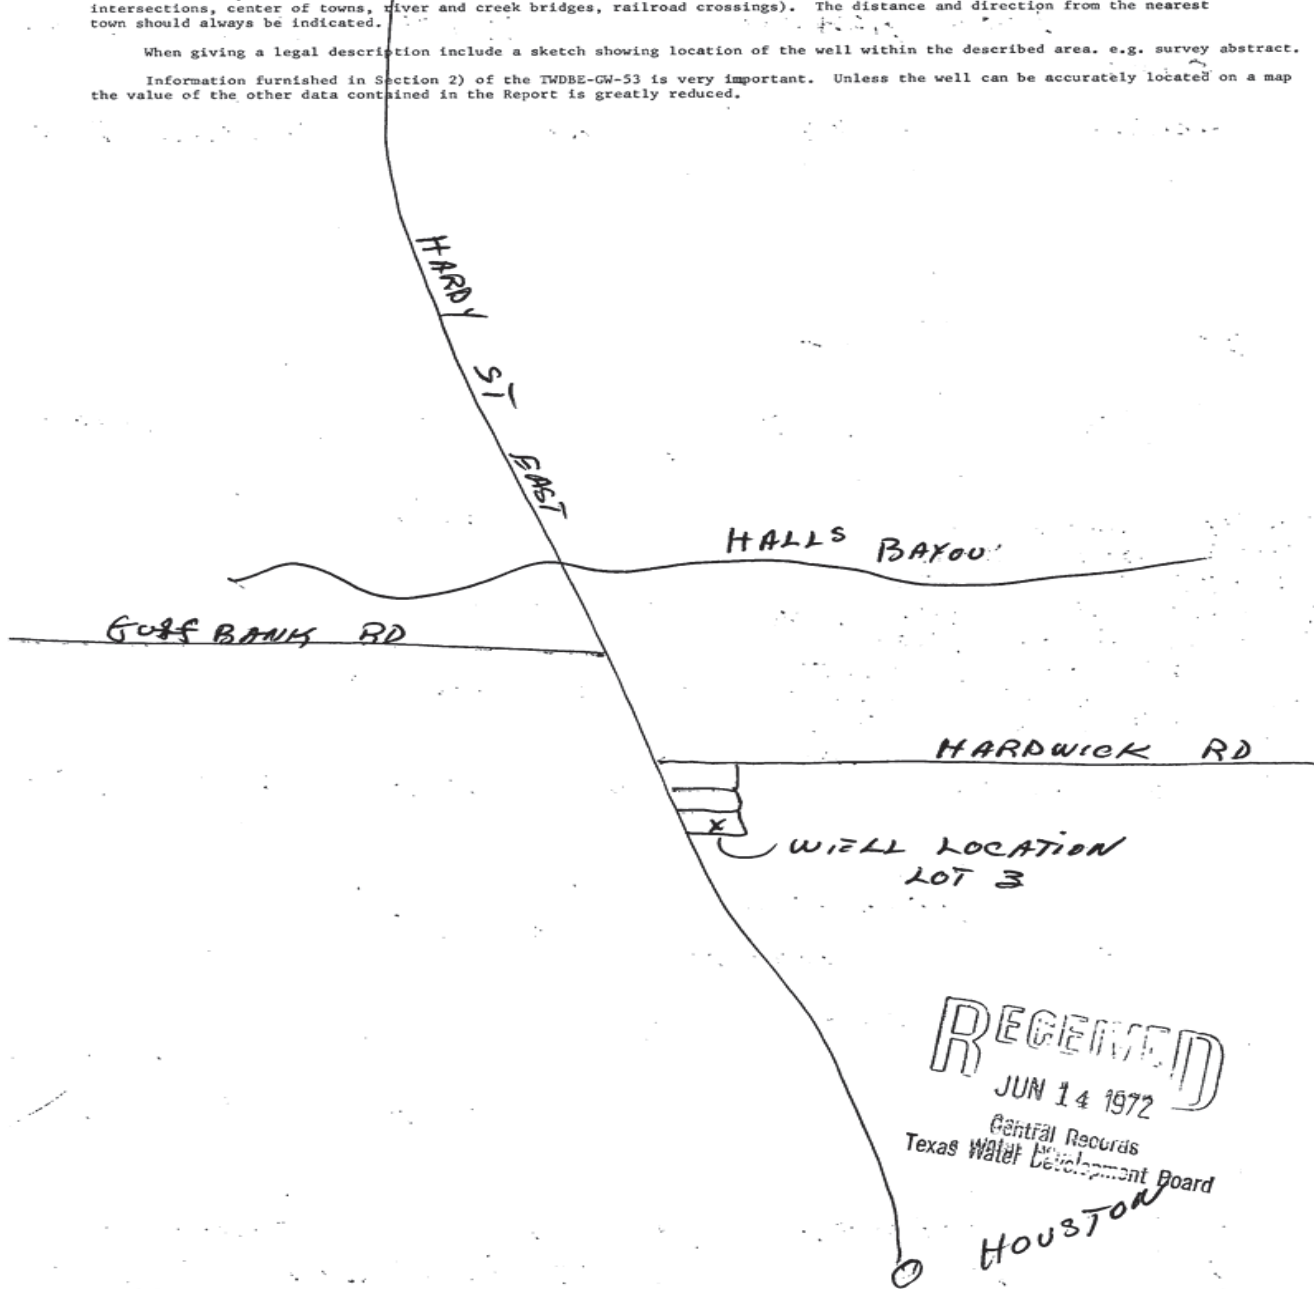

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TWDBE-WD-6

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

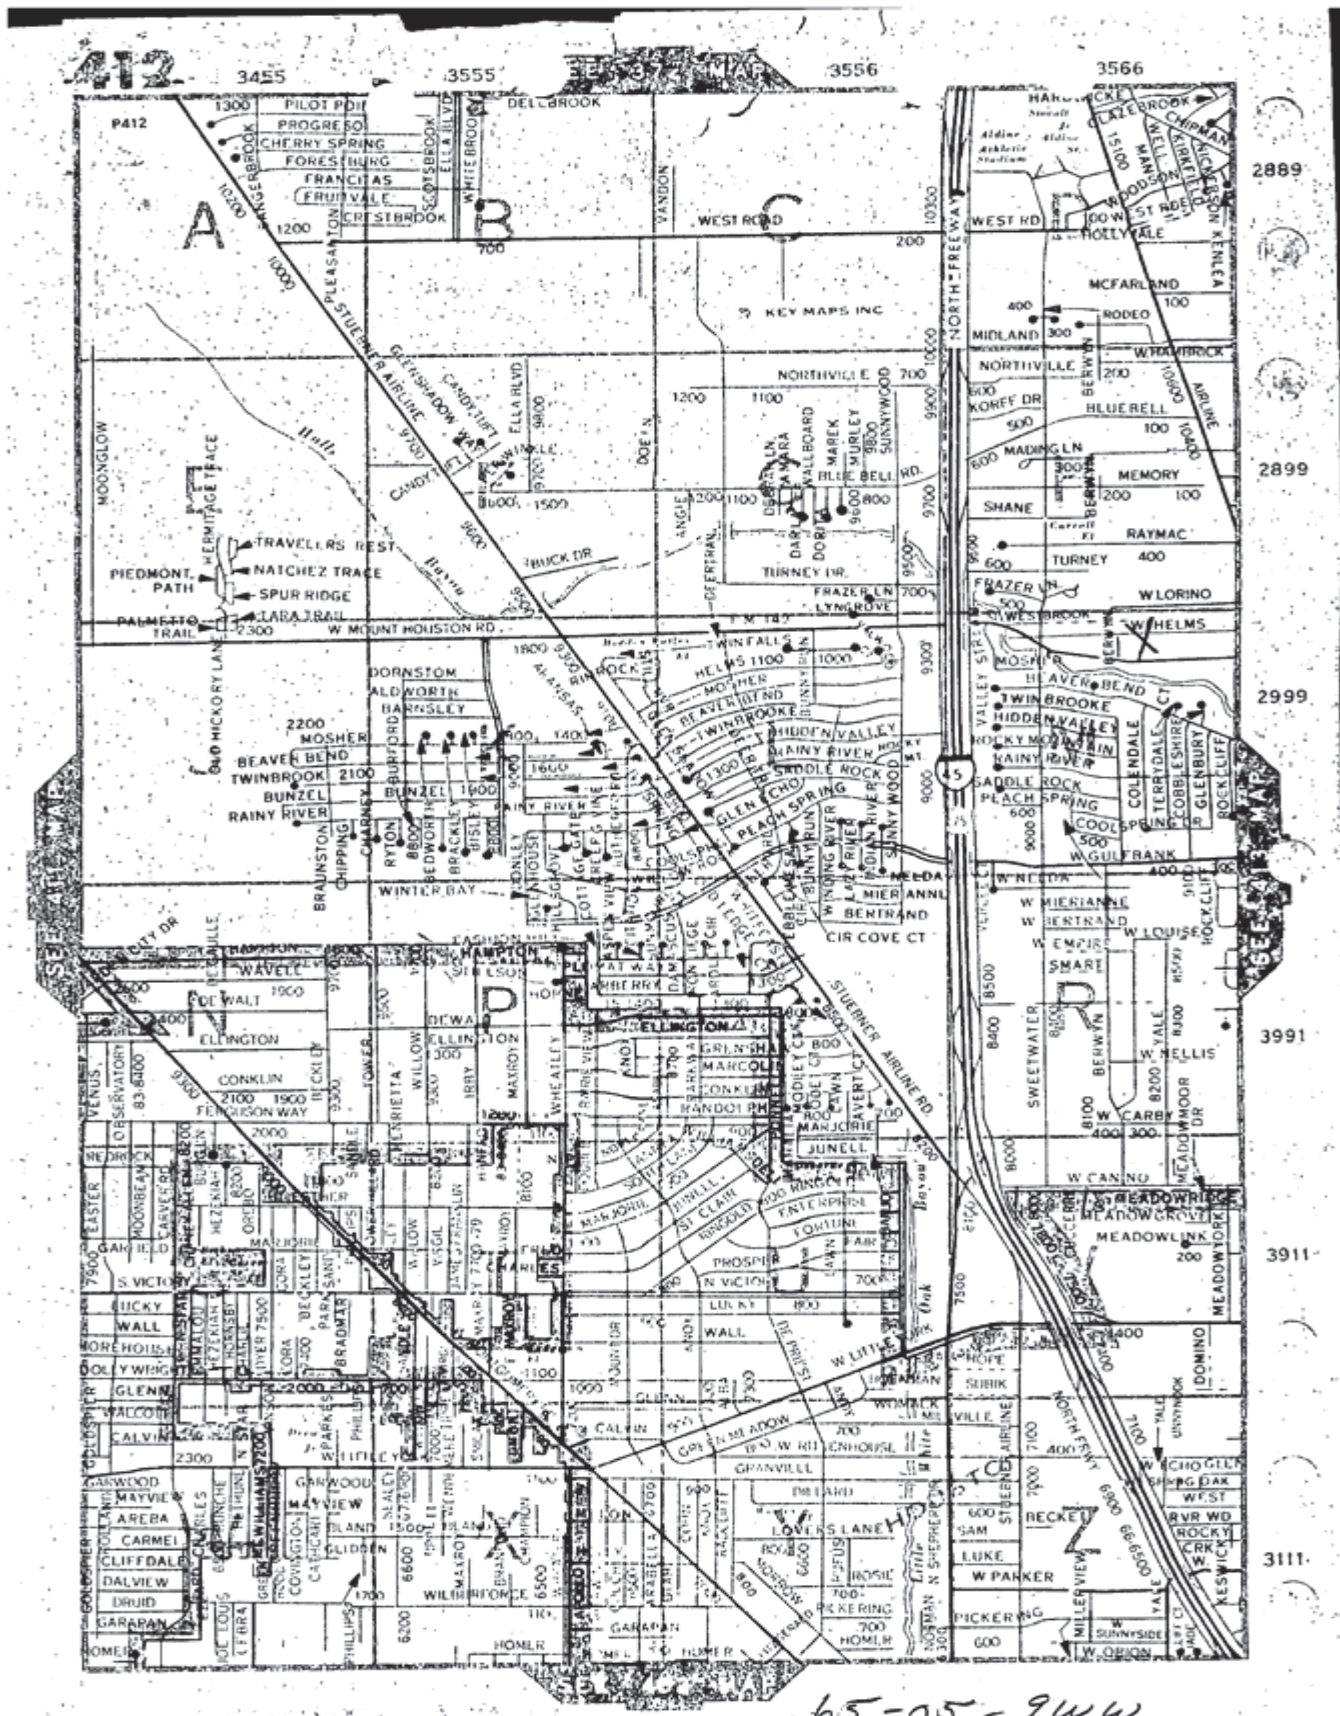

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

- 155 - 157 Red Gray Clay
- 157 - 166 Sand
- 166 - 170 Red Clay
- 170 - 175 Sand
- 175 - 200 Sand

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

TWDBE-WD-8

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

WATER WELL REPORT

For TDWR use only
Well No. 10
Located on map _____
Received: _____

1) OWNER THE BAUGH Address 518 HILL HOUSTON TEXAS
(Name) (Street or RFD) (City) (State) (Zip)

2) LOCATION OF WELL
County HARRIS 10 miles in N direction from HOUSTON
(N.E., S.W., etc.) (Town)

Legal description:
Section No. _____ Block No. _____ Township _____
Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____
 See attached map.

3) TYPE OF WORK (Check):
 New Well Deepening Reconditioning Plugging
 Domestic Industrial Public Supply Irrigation Test Well Other _____

4) PROPOSED USE (Check):
 Domestic Industrial Public Supply Irrigation Test Well Other _____

5) DRILLING METHOD (Check):
 Mud Rotary Air Hammer Driven Bored
 Air Rotary Cable Tool Jetted Other _____

6) WELL LOG:
Date drilled 1-24-79

From (ft.)	To (ft.)	Description and color of formation material	DIAMETER OF HOLE	
			Dia. (in.)	From (ft.) To (ft.)
0	4	TOP SOIL	3 7/8	Surface 100
4	20	YELLOW SHALE		
20	46	RED SHALE		
46	55	RED SAND		
55	87	RED SHALE		
87	100	SAND		

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other _____
If Gravel Packed give interval . . . from _____ ft. to _____ ft.

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

From (ft.)	To (ft.)	Description and color of formation material	Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.)		Gage Casing Screen
						From	To	
0	90		2	N	PLASTIC	1/4 ABOVE GROUND	90	5/4 4/0
90	100		2	N	PLASTIC SCREEN		90	5/4 4/0

CEMENTING DATA
Cemented from 0 ft. to 90 ft.
Method used MIXED & POURED
Cemented by JAMES H. SUGG JR.
(Company or Individual)

9) WATER LEVEL:
Static level 58 ft. below land surface Date 1-24-79
Artesian flow _____ gpm. Date _____

10) PACKERS: Type Depth
RUBBER 90'

11) TYPE PUMP:
 Turbin Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 85 ft.

12) WELL TESTS:
 Type Test: Pump Bailor Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

13) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

NAME JAMES H. SUGG JR. Water Well Drillers Registration No. 1006
(Type or Print)

ADDRESS 13501 CHRISMAN #16 HOUSTON TEXAS 77039
(Street or RFD) (City) (State) (Zip)

(Signed) James H. Sugg Jr. SUGG WATER WELL DRILLING
(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

* Additional instructions on reverse side.
TOWR-0392

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area, e.g. survey abstract.

Information furnished in Section 2 of the TDWR-0392 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

State of Texas WELL REPORT

Texas Water Well Drillers Board P.O. Box 13087 Austin, Texas 78711

1) OWNER Steve - Aline Pump ADDRESS 1322 Hartwick Ave. TX.
(Name) (Street or RFD) (City) (State) (Zip)

2) LOCATION OF WELL: County Harris 10 miles in N direction from Houston, TX.
(NE, SW, etc.) (Town)

Driller must complete the legal description below with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

LEGAL DESCRIPTION:
Section No. _____ Block No. _____ Township _____ Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

SEE ATTACHED MAP on G-5-05-7

3) TYPE OF WORK (Check): New Well Deepening Reconditioning Plugging

4) PROPOSED USE (Check): Domestic Industrial Monitor Public Supply Irrigation Test Well Injection De-Watering

5) DRILLING METHOD (Check): Mud Rotary Air Hammer Jetted Bored Air Rotary Cable Tool Other _____

6) WELL LOG: Date Drilling: Started 6-19-89 Completed 6-22-89

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

9) CEMENTING DATA (Rule 287.44(1))
Cemented from 0 ft. to 15 ft. No. of Sacks Used 2
250 ft. to 350 ft. No. of Sacks Used 12
Method used Pressure
Cemented by CWA

10) SURFACE COMPLETION: Specified Surface Slab Installed [Rule 287.44(2)(A)]
 Pitless Adapter Used [Rule 287.44(3)(B)]
 Approved Alternative Procedure Used [Rule 287.71]

11) WATER LEVEL: Static level 200 ft. below land surface Date 6-22-89
Artesian flow _____ gpm. Date _____

12) PACKERS: Type 4x 2 1/2 R.R Depth 340

13) TYPE PUMP: Turbine Jet Submersible Cylinder Other None
Depth to pump bowls, cylinder, jet, etc., _____

14) WELL TESTS: Type Test: Pump Bailer Jetted Estimated
Yield: _____ gpm with _____ ft. drawdown after _____ hrs.

15) WATER QUALITY: Did the drilling penetrate any strata which contained undesirable constituents?
 Yes No If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? Potable Depth of strata 20
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

Artesian flow _____ gpm
Temperature of water _____

8) WATER LEVEL: Static level 136 ft. below land surface Date 10-4-72
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 205 ft. below land surface.

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No
Did any strata contain undesirable water? Yes _____ No
Type of water? _____ depth of strata 22 FT

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

NAME BRUND DIETZ Water Well Drillers Registration No. 313
(Type or Print)
ADDRESS 3051 ROTHERMIEL HOUSTON TEXAS
(Street or RFD) (City) (State)
(Signed) BRUND DIETZ DIETZ PUMP WELL SERVICE
(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.

*Additional instructions on reverse side.

TWDBE-GW-53

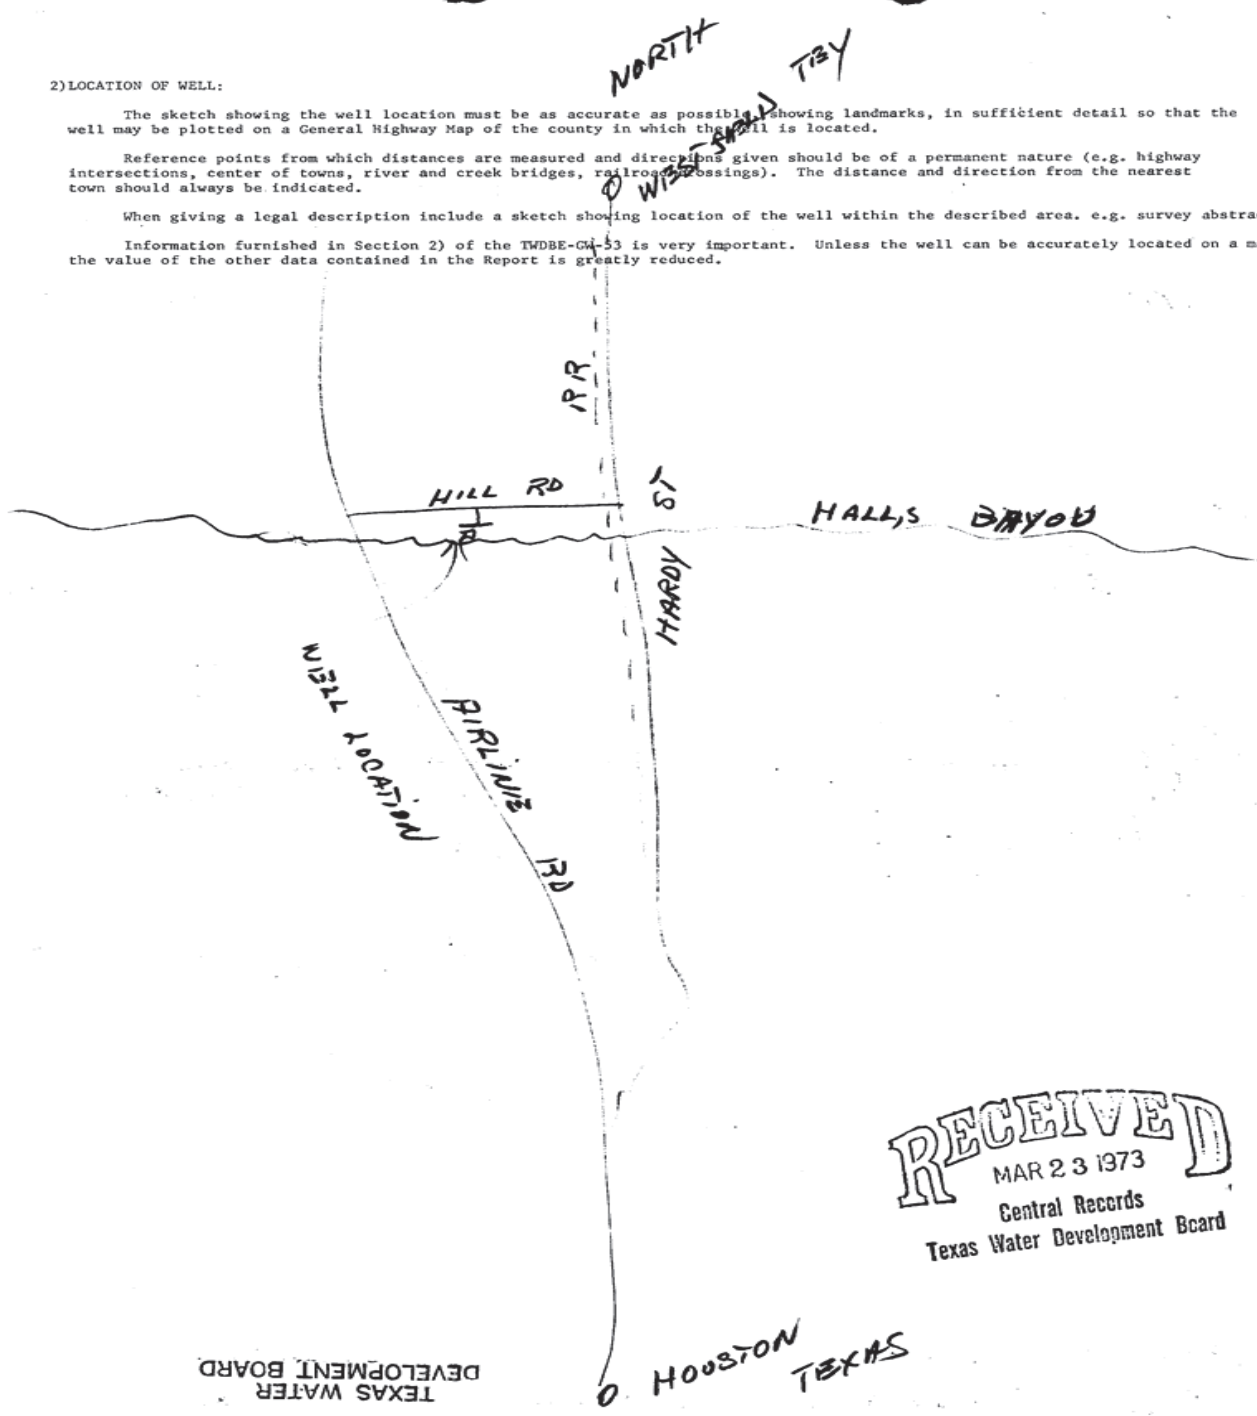

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GA-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

WATER WELL REPORT

Texas Water Well Drillers Board
P. O. Box 13087
Austin, Texas 78711

ATTENTION OWNER: Confidentiality Privilege Notice on Reverse Side

1) OWNER Mr. Guy Branch Address 826 Bishopvale Hou. Tx. 77037
(Name) (Street or RFD) (City) (State) (Zip)

2) LOCATION OF WELL: 826 Bishopvale
County Harris miles in _____ direction from _____
(Town)

Legal description: Section No. _____ Block No. _____ Township _____
Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____
 See attached map. 65-16-4

3) TYPE OF WORK (Check):
 New Well Deepening Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Public Supply Irrigation Test Well Other _____

5) DRILLING METHOD (Check):
 Mud Rotary Air Hammer Driven Bored Air Rotary Cable Tool Jetted Other _____

6) WELL LOG:
Date drilled 12/12/85

		DIAMETER OF HOLE	
From (ft.)	To (ft.)	Dia. (in.)	Surface
0	45	6 3/4	338

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other _____
If Gravel Packed give interval . . . from _____ ft. to _____ ft.

From (ft.)	To (ft.)	Description and color of formation material	Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.)		Gage Casing Screen
						From	To	
0	45	Drop Soil + Clay						
45	92	Sand						
92	151	Clay	4	N	PVC	0	327	
151	194	Sand	2	N	Galv.	318	328	
194	263	Clay	2	N	PVC	328	338	0.16
263	295	Sand						
295	302	Clay						
302	338	Sand						

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

9) CEMENTING DATA [Rule 319.44(b)]
Cemented from 0 ft. to 10 ft.
277 ft. to 327 ft.
Method used Halliburton
Cemented by Russell + Son

10) SURFACE COMPLETION
 Specified Surface Slab Installed [Rule 319.44(c)]
 Pitless Adapter Used [Rule 319.44(d)]
 Approved Alternative Procedure Used [Rule 319.71]

11) WATER LEVEL:
Static level 243 ft. below land surface Date 12-16-85
Artesian flow _____ gpm. Date _____

12) PACKERS: Type _____ Depth _____

13) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., _____ ft.

14) WELL TESTS:
Type Test: Pump Bailer Jetted Estimated
Yield: 15 gpm with 15 ft. drawdown after 1 hrs.

15) WATER QUALITY:
Did you knowingly penetrate any strata which contained undesirable water? Yes No
If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I here by certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 12 will result in the log(s) being returned for completion and resubmittal.

TWDBE-WDB

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

Texas Water Well Drillers Board
P.O. Box 13087
Austin, Texas 78711

1) OWNER SMS OF TEXAS ADDRESS 1535 MOONEY RD HSTN TX 77093
(Name) (Street or RFD) (City) (State) (Zip)

2) LOCATION OF WELL: 1535 MOONEY RD.
County HARRIS miles in _____ direction from _____
(NE, SW, etc.) (Town)

Driller must complete the legal description below with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

LEGAL DESCRIPTION:

Section No. _____ Block No. _____ Township _____ Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

SEE ATTACHED MAP

3) TYPE OF WORK (Check):

- New Well Deepening
- Reconditioning Plugging

4) PROPOSED USE (Check):

- Domestic Industrial Monitor Public Supply
- Irrigation Test Well Injection De-Watering

5) DRILLING METHOD (Check):

- Mud Rotary Air Hammer Jetted Bored
- Air Rotary Cable Tool Other _____

6) WELL LOG:

Date Drilling: _____
Started 1-14-93
Completed 1-15-93

DIAMETER OF HOLE

Dia. (in.)	From (ft.)	To (ft.)
<u>1 3/4</u>	Surface	<u>335</u>
<u>3 7/8</u>	<u>335</u>	<u>347</u>

7) BOREHOLE COMPLETION:

- Open Hole Straight Wall Underreamed
 - Gravel Packed Other _____
- If Gravel Packed give interval ... from _____ ft. to _____ ft.

From (ft.) To (ft.) Description and color of formation material

0	17	TOP SOIL & CLAY
17	38	SURFACE SAND
38	80	CLAY
80	115	SAND
115	165	CLAY
165	170	SAND
170	185	CLAY
185	190	SAND
190	252	CLAY
252	342	SAND

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

9) CEMENTING DATA [Rule 287.44(1)]

Cemented from 0 ft. to 15 ft. No. of Sacks Used 10
28.5 ft. to 335 ft. No. of Sacks Used 3
Method used Halliburton + Trimm
Cemented by BUSSELL + SON INC.

13) TYPE PUMP:

- Turbine Jet Submersible Cylinder
 - Other _____
- Depth to pump bowls, cylinder, jet, etc., 300 ft.

14) WELL TESTS:

Type Test: Pump Bailor Jetted Estimated
Yield: 15 gpm with _____ ft. drawdown after _____ hrs.

15) WATER QUALITY:

Did you knowingly penetrate any strata which contained undesirable constituents?
 Yes No If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

10) SURFACE COMPLETION

- Specified Surface Slab Installed [Rule 287.44(2)(A)]
- Specified Steel Sleeve Installed [Rule 287.44(3)(A)]
- Pitless Adapter Used [Rule 287.44(3)(B)]
- Approved Alternative Procedure Used [Rule 287.71]

11) WATER LEVEL:

Static level 246 ft. below land surface Date 1-15-93
Artesian flow _____ gpm. Date _____

12) PACKERS:

Type _____ Depth 327
K-PACKER

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.

WATER WELL REPORT

1) OWNER: Person having well drilled Alice Kelso Address 1934 Kow's Houston Tex.
(Name) (Street or RFD) (City) (State)
Landowner SAME Address _____
(Name) (Street or RFD) (City) (State)

2) LOCATION OF WELL: County Harris miles in 11 NE direction from Houston
(N.E., S.W., etc.) (Town)

or Give legal location with distances and directions from adjacent sections or survey lines.

Labor _____ League _____
Block _____ Survey _____
Abstract No. _____
(NW¼ NE¼ SW¼ SE¼) of Section _____

3) TYPE OF WORK (Check):
New Well Deepening _____
Reconditioning _____ Plugging _____
4) PROPOSED USE (Check):
Domestic Industrial _____ Municipal _____
Irrigation _____ Test Well _____ Other _____
5) TYPE OF WELL (Check):
Rotary Driven _____ Dug _____
Cable _____ Jetted _____ Bored _____

6) WELL LOG: Diameter of hole 4 in. Depth drilled 85 ft. Depth of completed well 41 ft. Date drilled Oct 1978
All measurements made from _____ ft. above ground level.

From (ft.)	To (ft.)	Description and color of formation material
0 - 41		RED Clay
41 - 48		Five RED sand
48 - 85		White Clay

9) CASING:
Type: Old _____ New _____ Steel _____ Plastic _____ Other _____
Cemented from _____ ft. to _____ ft.
Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Gage _____

10) SCREEN:
Type NOUE
Perforated _____ Slotted _____
Diameter (inches) _____ Setting From (ft.) _____ To (ft.) _____ Slot Size _____

7) COMPLETION (Check):
Straight well Gravel packed _____ Other _____
Under reamed _____ Open Hole _____

11) WELL TESTS:
Was a pump test made? Yes No _____ If yes, by whom? ME
Yield: 210 GPM with 0 ft. drawdown after 3 hrs.
Bailer test _____ gpm with _____ ft. drawdown after _____ hrs.
Artesian flow _____ gpm
Temperature of water _____

8) WATER LEVEL:
Static level 27 ft. below land surface Date _____
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc. 18 ft. below land surface.
20' Tail pipe

12) WATER QUALITY:
Was a chemical analysis made? Yes _____ No _____
Did any strata contain undesirable water? Yes _____ No _____
Type of water? _____ depth of strata _____

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.

7) COMPLETION (Check): Straight wall _____ Gravel packed _____ Other _____
Under reamed _____ Open Hole _____
11) WELL TESTS: Was a pump test made? Yes No _____ If yes, by whom? _____
Yield: 700 GPM with OPEN FLOW ft. drawdown after 30 MIN hrs.

8) WATER LEVEL: Static level 220 ft. below land surface Date 8-24-74
Artesian pressure _____ lbs. per square inch Date _____
Depth to pump bowls, cylinder, jet, etc., 273 ft. below land surface.
12) WATER QUALITY: Was a chemical analysis made? Yes No _____
Did any strata contain undesirable water? Yes _____ No _____
Type of water? _____ depth of strata 19 FT

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief.
NAME BRUND DIETZ Water Well Drillers Registration No. 323
ADDRESS 3051 KOTHEIMEL HOUSTON TEXAS
(Signed) BRUND DIETZ DIETZ PUMP WELL SERVICE
(Water Well Driller) (Company Name)

Please attach electric log, chemical analysis, and other pertinent information, if available.
*Additional instructions on reverse side.

2) LOCATION OF WELL:

The sketch showing the well location must be as accurate as possible, showing landmarks, in sufficient detail so that the well may be plotted on a General Highway Map of the county in which the well is located.

Reference points from which distances are measured and directions given should be of a permanent nature (e.g. highway intersections, center of towns, river and creek bridges, railroad crossings). The distance and direction from the nearest town should always be indicated.

When giving a legal description include a sketch showing location of the well within the described area. e.g. survey abstract.

Information furnished in Section 2) of the TWDBE-GW-53 is very important. Unless the well can be accurately located on a map the value of the other data contained in the Report is greatly reduced.

WELL REPORT**

Texas Water Well Drillers Board
P.O. Box 13087
Austin, Texas 78711

1) OWNER Mr. Larry Benfield ADDRESS 1507 Wedgewood Houston TX 77098
(Name) (Street or RFD) (City) (State) (Zip)

2) LOCATION OF WELL:
County Harris 18 miles in N.W. direction from Houston
(NE, SW, etc.) (Town)

Driller must complete the legal description below with distance and direction from two intersecting section or survey lines, or he must locate and identify the well on an official Quarter- or Half-Scale Texas County General Highway Map and attach the map to this form.

LEGAL DESCRIPTION:
Section No. _____ Block No. _____ Township _____ Abstract No. _____ Survey Name _____
Distance and direction from two intersecting section or survey lines _____

SEE ATTACHED MAP 0765-06-4

3) TYPE OF WORK (Check):
 New Well Deepening
 Reconditioning Plugging

4) PROPOSED USE (Check):
 Domestic Industrial Monitor Public Supply
 Irrigation Test Well Injection De-Watering

5) DRILLING METHOD (Check): Driven
 Mud Rotary Air Hammer Jetted Bored
 Air Rotary Cable Tool Other _____

6) WELL LOG:
Date Drilling: 4-24-90
Started 4-24-90 Completed 4-24-90

Date	DIAMETER OF HOLE		
	Dia. (in.)	From (ft.)	To (ft.)
Started	<u>4 1/4</u>	Surface	<u>51'</u>
Completed			

7) BOREHOLE COMPLETION:
 Open Hole Straight Wall Underreamed
 Gravel Packed Other _____
If Gravel Packed give interval ... from _____ ft. to _____ ft.

From (ft.) 0 To (ft.) 51' Description and color of formation material

From (ft.)	To (ft.)	Description and color of formation material	Dia. (in.)	New or Used	Steel, Plastic, etc. Perf., Slotted, etc. Screen Mfg., if commercial	Setting (ft.) From	To	Gage Casting Screen
<u>0</u>	<u>10</u>	<u>CLAY</u>						
<u>10</u>	<u>15</u>	<u>SAND</u>

<u>32</u>	<u>35</u>	<u>SAND</u>						
<u>35</u>	<u>47</u>	<u>Red clay</u>						
<u>47</u>	<u>51</u>	<u>SAND/BROKEN rock</u>						

8) CASING, BLANK PIPE, AND WELL SCREEN DATA:

9) CEMENTING DATA [Rule 287.44(1)]
Cemented from _____ ft. to _____ ft. No. of Sacks Used _____
_____ ft. to _____ ft. No. of Sacks Used _____
Method used _____
Cemented by _____

(Use reverse side if necessary)

10) SURFACE COMPLETION
 Specified Surface Slab Installed [Rule 287.44(2)(A)]
 Pitless Adapter Used [Rule 287.44(3)(B)]
 Approved Alternative Procedure Used [Rule 287.71]

11) WATER LEVEL:
Static level 13' ft. below land surface Date 4-24-90
Artesian flow _____ gpm. Date _____

12) PACKERS: Formation Type 2" Depth 48'

13) TYPE PUMP:
 Turbine Jet Submersible Cylinder
 Other _____
Depth to pump bowls, cylinder, jet, etc., 21'

14) WELL TESTS:
Type Test: Pump Baller Jetted Estimated
Yield: 12 gpm with 10 ft. drawdown after 3 hrs.

15) WATER QUALITY:
Did the drilling penetrate any strata which contained undesirable constituents?
 Yes No If yes, submit "REPORT OF UNDESIRABLE WATER"
Type of water? _____ Depth of strata _____
Was a chemical analysis made? Yes No

I hereby certify that this well was drilled by me (or under my supervision) and that each and all of the statements herein are true to the best of my knowledge and belief. I understand that failure to complete Items 1 thru 15 will result in the log(s) being returned for completion and resubmittal.
